THE BOARD OF TRUSTEES OF THE GRANGER-HUNTER IMPROVEMENT DISTRICT

PUBLIC NOTICE is hereby given by the Board of Trustees that Granger-Hunter Improvement District will hold a Board Meeting at 3:00 p.m. on Tuesday, July 28, 2026, at its main office located at 2888 South 3600 West, West Valley City, Utah. Trustees and members of the public are able to attend this meeting in person or electronically through www.ghid.gov.

Agenda

A. GENERAL

1. Call to order – Welcome – Report those present for the record
2. Public Comments
3. Consider approval of the June 16, 2026 Strategic Planning and Board Meeting Minutes
4. Discuss potential conflicts of interest

B. OUR COMMUNITY

1. Water & Wastewater Master Plan Update – Revenue Needs and Project Rankings
2. Anderson Water Treatment Plant Incident Update
3. Salt Lake County Local Emergency Planning Committee recognition event of District employee Jason Stevens.

C. OUR TEAM

1. Recognition of Wastewater Staff and Outstanding Customer Service to the Community

D. OUR OPERATIONS

1. Department Highlights
 - a. Administrative Services
 - b. Wastewater Maintenance
2. Consider approval of the Transparent Water Billing Grant Contract with the State of Utah.
3. Consider approval for the annual renewal of Tyler Technologies support and maintenance contract in the amount of \$67,146.23.
4. Consider approval of a construction contract with Don Calvert Painting and Special Coatings for the 26D: Manhole Rehabilitation Project in the amount of \$167,401.00.

E. CLOSED SESSION

F. BOARD MEMBERS INPUT, REPORTS, FOLLOW-UP ITEMS OR QUESTIONS

G. CALENDAR

1. The next board meeting will be August 18, 2026.
2. Discuss September meeting date.

H. APPENDICES

1. Jordan Valley Water Conservancy District Update
2. Central Valley Water Reclamation Facility Update
3. Financial Report for June 2026
4. Paid Invoice Report for June 2026
5. Administrative Services Update
6. Water Maintenance Update
7. Wastewater Maintenance Update
8. Operations Update
9. Capital Projects Update
10. Engineering Department Update

MINUTES OF THE GRANGER-HUNTER IMPROVEMENT DISTRICT STRATEGIC PLANNING MEETING

The Strategic Planning Meeting of the Board of Trustees of the Granger-Hunter Improvement District (GHID) was held Tuesday, June 16, 2026, at 8:00 A.M. at the District office located at 2888 S. 3600 W., West Valley City, Utah.

This meeting was conducted electronically in accordance with the Utah Open and Public Meetings Act (Utah Code Ann. (1953) §§ 52-4-1 et seq.) and Chapter 7.12 of the Administrative Policy and Procedures Manual (“Electronic Meetings”).

Trustees Present:

Wayne Watts	Chair
Debra Armstrong	Trustee
Roger Nordgren	Trustee

Staff Members Present:

Jason Helm	General Manager/Treasurer
Todd Marti	Assistant General Manager/District Engineer
Troy Stout	Assistant General Manager/Chief Operating Officer
Michelle Ketchum	Director of Administration
Drew Ovard	Director of Water Systems
Ricky Necaie	Director of Wastewater
Victor Narteh	Director of Engineering
Justin Gallegos	Director of Information Technology
Austin Ballard	Controller/Clerk – <i>Electronically & In-Person</i>
Dakota Cambruzzi	Human Resource Manager
Kristy Johnson	Executive Assistant
Adam Spackman	System Admin – <i>Electronically</i>
Ian Bailey	GIS - <i>Electronically</i>

A copy of the exhibits referred to in these minutes is attached and incorporated by this reference. The exhibits are also included in the official minute books maintained by Granger-Hunter Improvement District.

CALL TO ORDER

At 8:02 A.M. Wayne Watts called the meeting to order and recognized all those present.

**Employee
Handbook/Policy
Review**

Jason Helm and Dakota Cambruzzi reviewed and discussed the Employee Handbook, specifically Chapter 7 – Employee Benefits. Sick leave, vacation time, part-time status, comp time, retirement buyout, and parental leave were all discussed. - See Employee Handbook/Policy Review attached to these minutes for more details.

A break was taken from 9:30 to 9:50 am

Operational Scorecard

Jason Helm presented the operations scorecard. Drew Ovard and Justin Gallegos reviewed operational scorecard and discuss key strengths, operational risks, and strategic priorities related to infrastructure condition, preventative maintenance, capital improvements, workforce planning, and data driven decision making. – See Operational Scorecard attached to these minutes for more details.

**Working Lunch and
Emergency Trailer Tour**

The Trustees and staff toured the District's Emergency Trailer in the parking lot. A lunch break was taken from 12:15 to 12:47 pm. Dakota Cambruzzi left after lunch.

**Looking Ahead: Capital
and Financial Strategy**

Austin Ballard discussed Looking Ahead: Capital and Financial Strategy. Mr. Ballard gave an overview of the Masterplan completion and capital project classification/priorities, projections for the 2027 budget, developing strategies for current and future revenue needs, and exploring funding approaches including rates, bonding, and property taxes. – See 2027 Budget, Rates & Fees attached to these minutes for more details.

Meeting ended at 2:30 pm.

Wayne D. Watts, Chair

Austin Ballard, Clerk

MINUTES OF THE GRANGER-HUNTER IMPROVEMENT DISTRICT BOARD MEETING

The Meeting of the Board of Trustees of the Granger-Hunter Improvement District (GHID) was held Tuesday, June 16, 2026, at 3:00 P.M. at the District office located at 2888 S. 3600 W., West Valley City, Utah.

This meeting was conducted electronically in accordance with the Utah Open and Public Meetings Act (Utah Code Ann. (1953) §§ 52-4-1 et seq.) and Chapter 7.12 of the Administrative Policy and Procedures Manual (“Electronic Meetings”).

Trustees Present:

Wayne Watts	Chair
Debra Armstrong	Trustee
Roger Nordgren	Trustee

Staff Members Present:

Jason Helm	General Manager/Treasurer
Todd Marti	Assistant General Manager/District Engineer
Troy Stout	Assistant General Manager/Chief Operating Officer
Ricky Necaie	Director of Wastewater
Victor Narteh	Director of Engineering
Drew Ovard	Director of Water Systems
Michelle Ketchum	Director of Administration
Justin Gallegos	Director of Information Technology
Austin Ballard	Controller/Clerk
Kristy Johnson	Executive Assistant
Brent Rose	Legal Counsel – Clyde Snow & Sessions PC - <i>Electronically</i>
Adam Spackman	System Admin – <i>Electronically</i>
Levi Allred	Operator - <i>Electronically</i>

Also Present:

Ryan Hatch	Utah Local Governments Trust – Left after approval item
------------	---

A copy of the exhibits referred to in these minutes is attached and incorporated by this reference. The exhibits are also included in the official minute books maintained by Granger-Hunter Improvement District.

CALL TO ORDER

At 3:01 P.M. Wayne Watts called the meeting to order and recognized all those present.

Public Comments

There were none.

**Approval of the
May 19, 2026,
Board Meeting Minutes**

A motion to approve the May 19, 2026, Board Meeting Minutes was made by Debra Armstrong. Following a second from Roger Nordgren, the motion passed as follows:

Watts – aye

Armstrong – aye

Nordgren – aye

Conflicts of interest

There were none.

**OUR COMMUNITY
Jordan Valley Water
Conservancy District
Update**

Jason Helm presented the Jordan Valley Water Conservancy District (JVWCD) update. Mr. Helm mentioned the JVWCD Conservation Garden and it's free admission to the District's residents. - See Jordan Valley Water Conservancy District Update attached to these minutes for details.

**Central Valley Water
Reclamation Facility
Update**

Mr. Helm presented the Central Valley Water Reclamation Facility update. – See Central Valley Water Reclamation Facility Update attached to these minutes for details.

OUR TEAM

**OUR OPERATIONS
Consider approval of
Resolution 6-16-26
ADOPTING
CERTIFIED
PROPERTY TAX
RATE FOR TAX YEAR
2026**

Austin Ballard asked the Board to consider approval of Resolution 6-16-26 ADOPTING CERTIFIED PROPERTY TAX RATE FOR TAX YEAR 2026. Roger Nordgren made a motion to approve the resolution as noted. Following a second from Debra Armstrong, the motion passed as follows:

Watts – aye

Armstrong – aye

Nordgren – aye

**Review & Discuss
Financial Report for
May 2026**

Austin Ballard summarized the May Financial Reports. – See May 2026 Financial Report attached to these minutes for details.

**Review & Discuss Paid
Invoice Report for
May 2026**

Mr. Ballard discussed the May 2026 check report. The May check report totaled \$4,600,482.81 coming from five categories: infrastructure (44%), Central Valley Water (28%), payroll taxes and employee benefits (8%), Jordan Valley Water (6%), and other (14%). – See May 2026 Paid Invoice Report attached to these minutes for details.

Consider Approval of District's Property & Casualty and Worker's Compensation Insurance Coverage Through Utah Local Governments Trust	Troy Stout asked the Board to consider approval of the District's Property & Casualty and Worker's Compensation Insurance coverage through the Utah Local Governments Trust in the amount of \$372,387.00. Debra Armstrong made a motion to approve the coverage as noted. Following a second from Roger Nordgren, the motion passed as follows:		
	Watts – aye	Armstrong – aye	Nordgren – aye
Administrative Services Update	Michelle Ketchum presented the Administrative Services Update. – See Administrative Services Update attached to these minutes for details.		
Water Maintenance Update	Drew Ovard presented the water maintenance update. – See Water Maintenance Update report attached to these minutes for details.		
Wastewater Maintenance & Fleet Update	Ricky Necaise presented the wastewater maintenance, safety and fleet report. – See the Wastewater Maintenance and Fleet Update report attached to these minutes for details.		
Operations Update	Justin Gallegos presented the Operations report. – See Operations Update attached to these minutes for details.		
Water Supply Report	Mr. Gallegos presented the May water supply and sewer reports. – See Operations Update attached to these minutes for details.		
Capital Projects Update	Todd Marti and Victor Narteh presented the Capital Projects update. – See Capital Projects Update attached to these minutes for details.		
Consider Approval of Construction Contract for Construction of 25A: Pleasant Valley WWPS Project to COP Construction LLC	Mr. Narteh asked the Board to consider approval of a construction contract for the construction of the 25A: Pleasant Valley WWPS Project to COP Construction LLC, in the amount of \$6,370,573.00. Roger Nordgren made a motion to approve the contract as noted. Following a second from Debra Armstrong, the motion passed as follows:		
	Watts – aye	Armstrong – aye	Nordgren – aye
Consider Approval of Contract Amendment for Construction Management Services with Sunrise Engineers for 25A: Pleasant Valley WWPS Project	Mr. Narteh asked the Board to consider approval of a contract amendment for construction management services with Sunrise Engineers for the 25A: Pleasant Valley WWPS Project in the amount of \$384,800.00. Debra Armstrong made a motion to approve the amendment as noted. Following a second from Roger Nordgren, the motion passed as follows:		
	Watts – aye	Armstrong – aye	Nordgren – aye
Engineering Department Update	Mr. Narteh presented the Engineering Department update. – See Engineering Department Update attached to these minutes for details.		

CLOSED SESSION

At 4:05 P.M., Debra Armstrong made a motion to enter into a closed session to discuss pending or reasonably imminent litigation. Following a second from Roger Nordgren, the motion passed as follows;

Watts – aye

Armstrong – aye

Nordgren – aye

All Trustees; Jason Helm, General Manager; Todd Marti, Assistant General Manager/District Engineer; Troy Stout, Assistant General Manager/Chief Operating Officer; Drew Ovard, Water Systems Division Manager; Ricky Necaise, Director of Wastewater; Justin Gallegos, Director of Information Technology; Michelle Ketchum, Director of Administrative Services, Victor Narteh, Director of Engineering, Austin Ballard, Controller/Clerk; Kristy Johnson, Executive Assistant, and Brent Rose, District legal counsel (*electronically*) were present during the closed session to discuss pending or reasonably imminent litigation.

At 4:16 P.M., Roger Nordgren made a motion to end the closed session and enter back into an open session. Following a second from Debra Armstrong, the motion passed as follows;

Watts – aye

Armstrong – aye

Nordgren – aye

OUR TEAM

Ratification of District Settlement Agreement Dated June 11, 2026

Troy Stout asked the Board to consider approval and ratification of the execution of the District Settlement Agreement dated June 11, 2026. Debra Armstrong made a motion to approve the ratification as noted. Following a second from Roger Nordgren, the motion passed as follows:

Watts – aye

Armstrong – aye

Nordgren – aye

BOARD MEMBERS INPUT, REPORTS, FOLLOW-UP ITEMS OR QUESTIONS

Wayne Watts mentioned the need to change the July board meeting. The July board meeting will be moved to July 28, 2026. All calendars and notifications will be updated to reflect the date change.

ADJOURNED

Inasmuch as all agenda items have been satisfied, Debra Armstrong made a motion to adjourn the meeting. Following a second from Roger Nordgren, the motion passed as follows and the meeting adjourned at 4:20 P.M.

Watts – aye

Armstrong – aye

Nordgren – aye

Wayne D. Watts, Chair

Austin Ballard, Clerk

DRAFT

GRANGER-HUNTER
IMPROVEMENT DISTRICT

OUR COMMUNITY

- Water & Wastewater Master Plans - Revenue Needs
- Anderson Water Treatment Plant Incident Update
- Salt Lake County Local Emergency Planning Committee Recognition

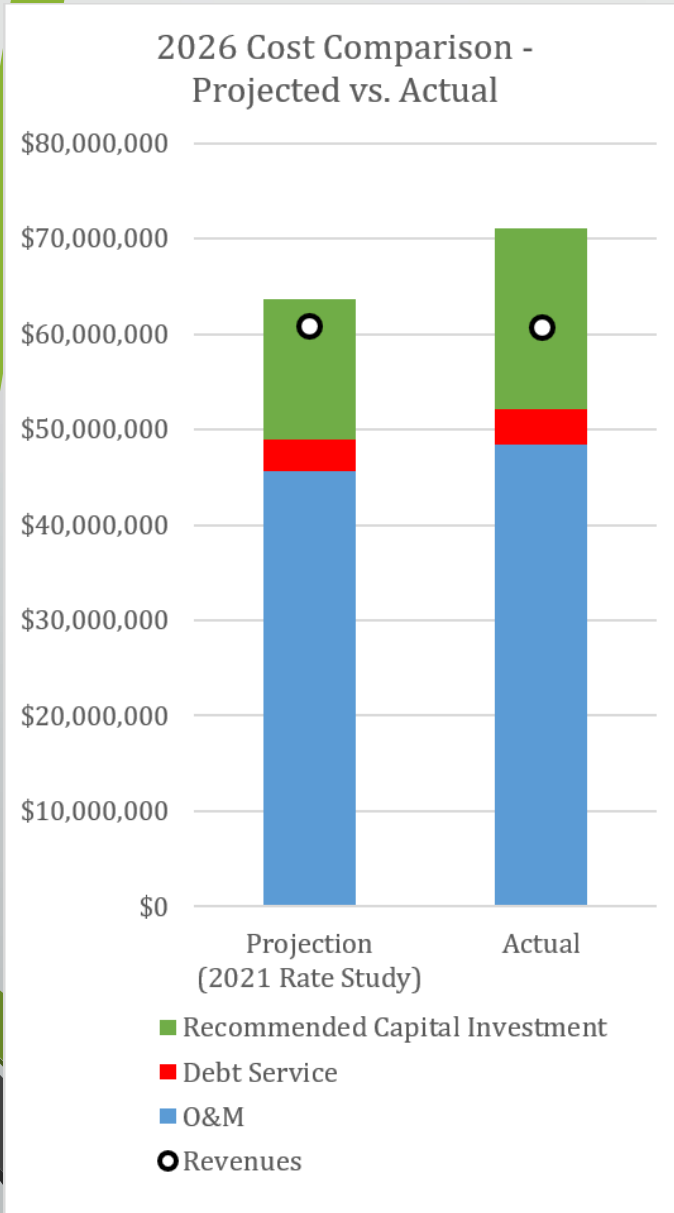

Water and Sewer Master Plans – Revenue Needs

Granger-Hunter Improvement District

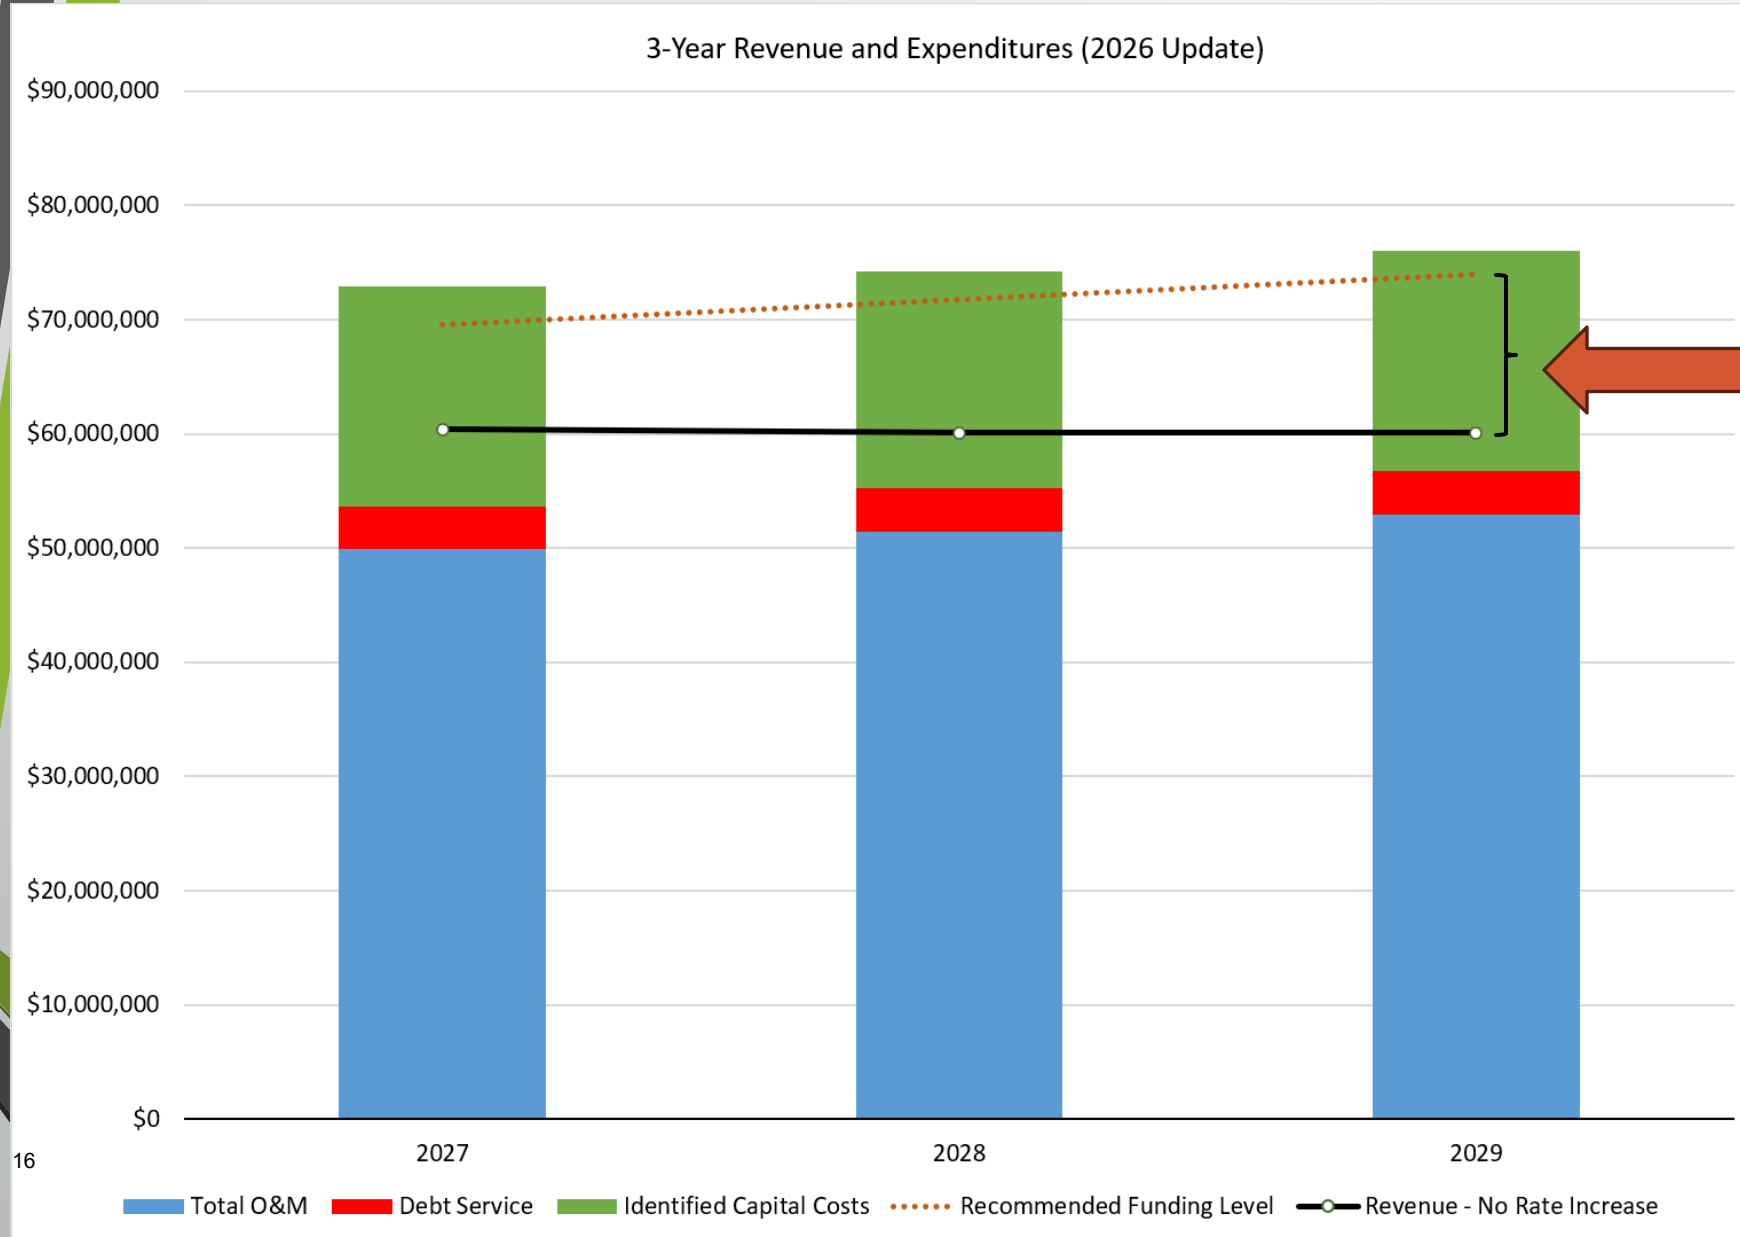

How do current conditions compare to 2021 Projections?

		Projection (2021 Rate Study)	Actual	Increase	% Increase
Expenditures	O&M	\$45,663,534	\$48,403,409	\$2,739,875	6.0%
	Debt Service	\$3,320,902	\$3,768,414	\$447,512	13.5%
	Recommended	\$14,630,918	\$18,973,979	\$4,343,061	29.7%
	Total	\$63,615,354	\$71,145,802	\$7,530,447	11.8%
Revenues		\$60,890,438	\$60,687,092	-\$203,346	-0.3%

Conclusion: Revenue projections are very close, but inflation was much higher than projected.

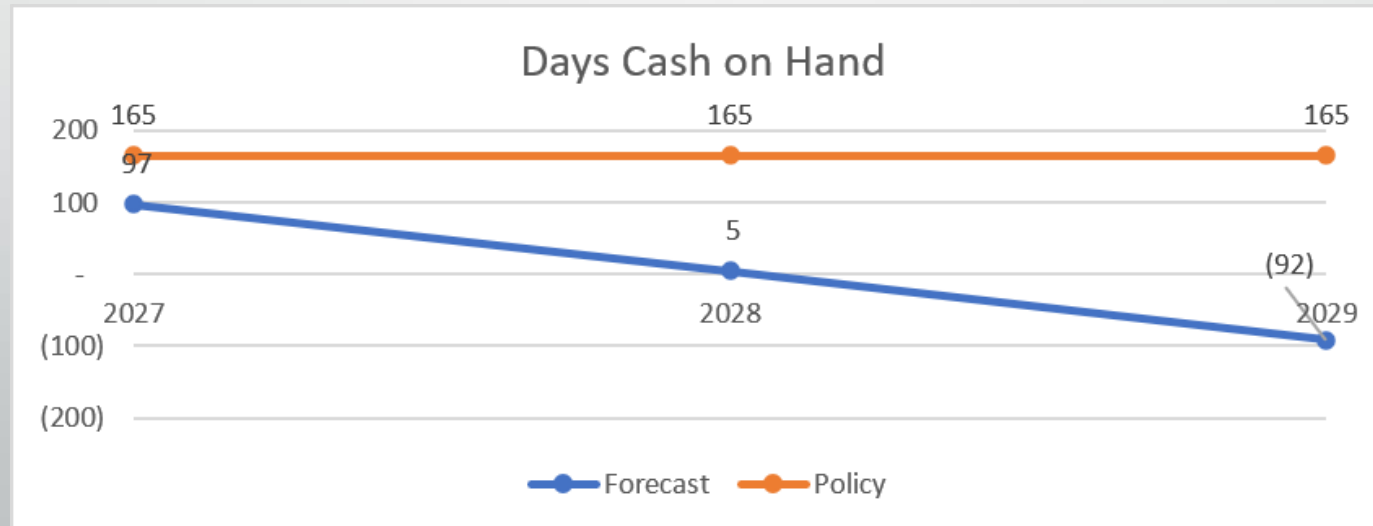

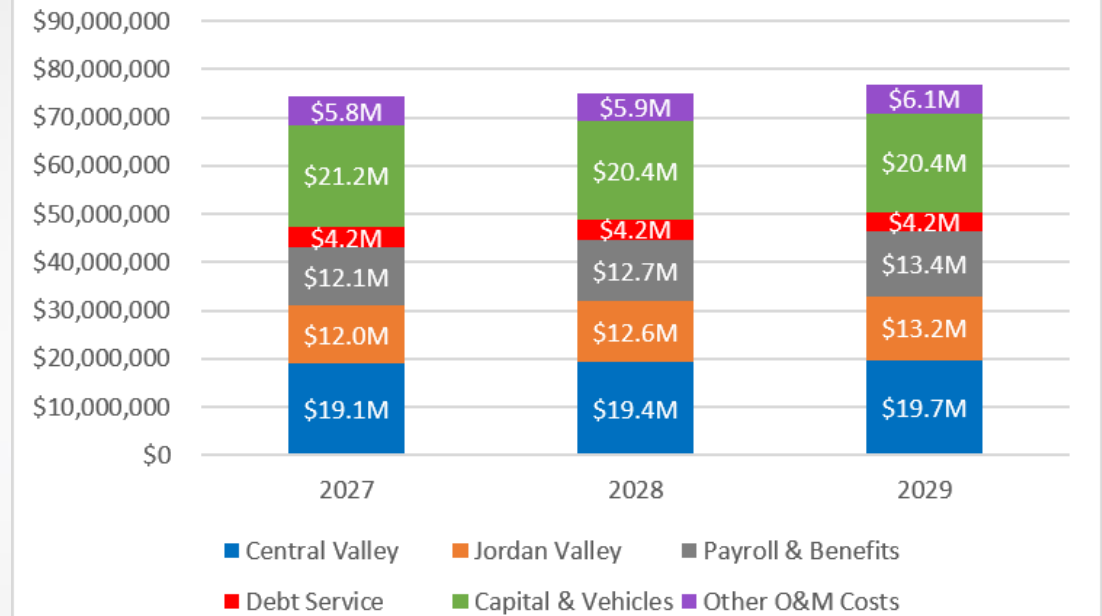

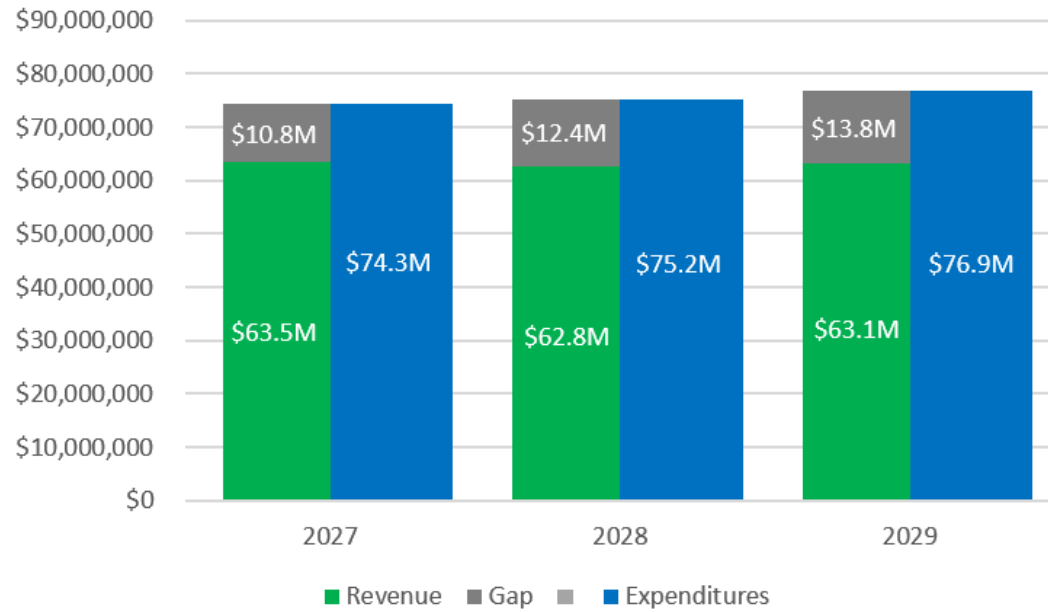

How does this affect District finances?

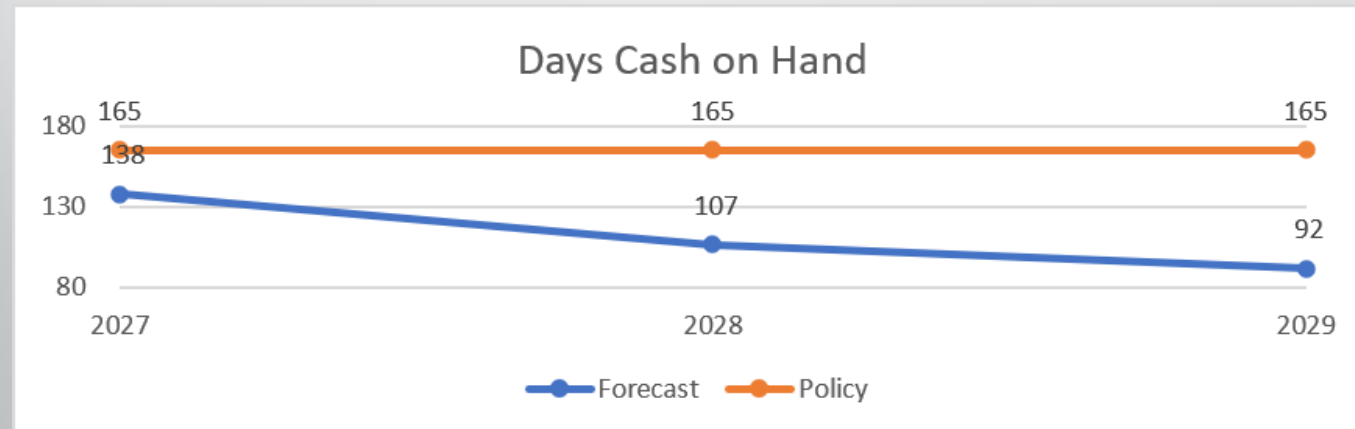

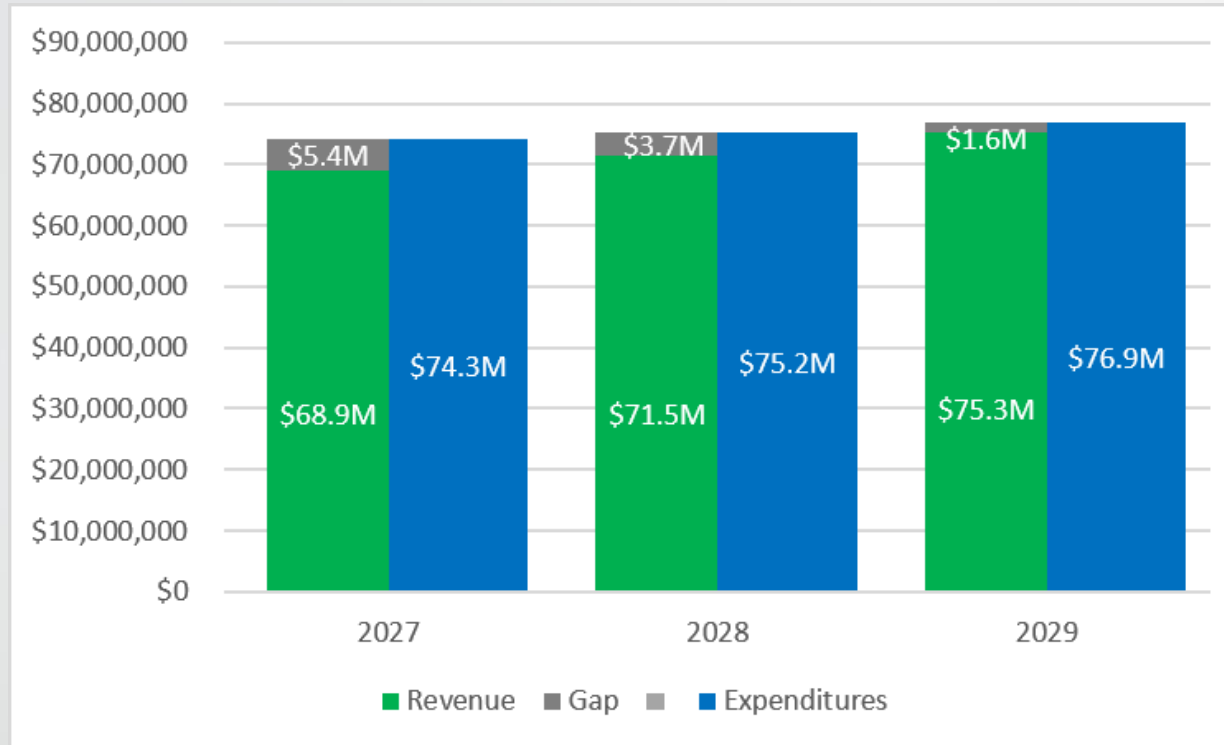

Conclusion:
Major gap
between
available
revenue and
projected needs.

~\$12 million in
2027 growing to
\$16 million in
2029

No Increases

2027 - 8%; 2028-2029 - 5%

How can we bridge the gap?

- Increase rates
 - Pro: Direct way to address needs and maintain level of service
 - Con: Increased near-term costs for customers
- Bond for project needs
 - Pros: May allow for more gradual rate increases, intergenerational equity for large projects
 - Con: Interest on projects results in higher long-term rates for customers
- Defer projects
 - Pro: Allows for reduced costs for customers in the near-term
 - Con: Continued degradation of the system will result in decreased level of service and/or greater long-term costs for customers

Other Revenue Sources and Information

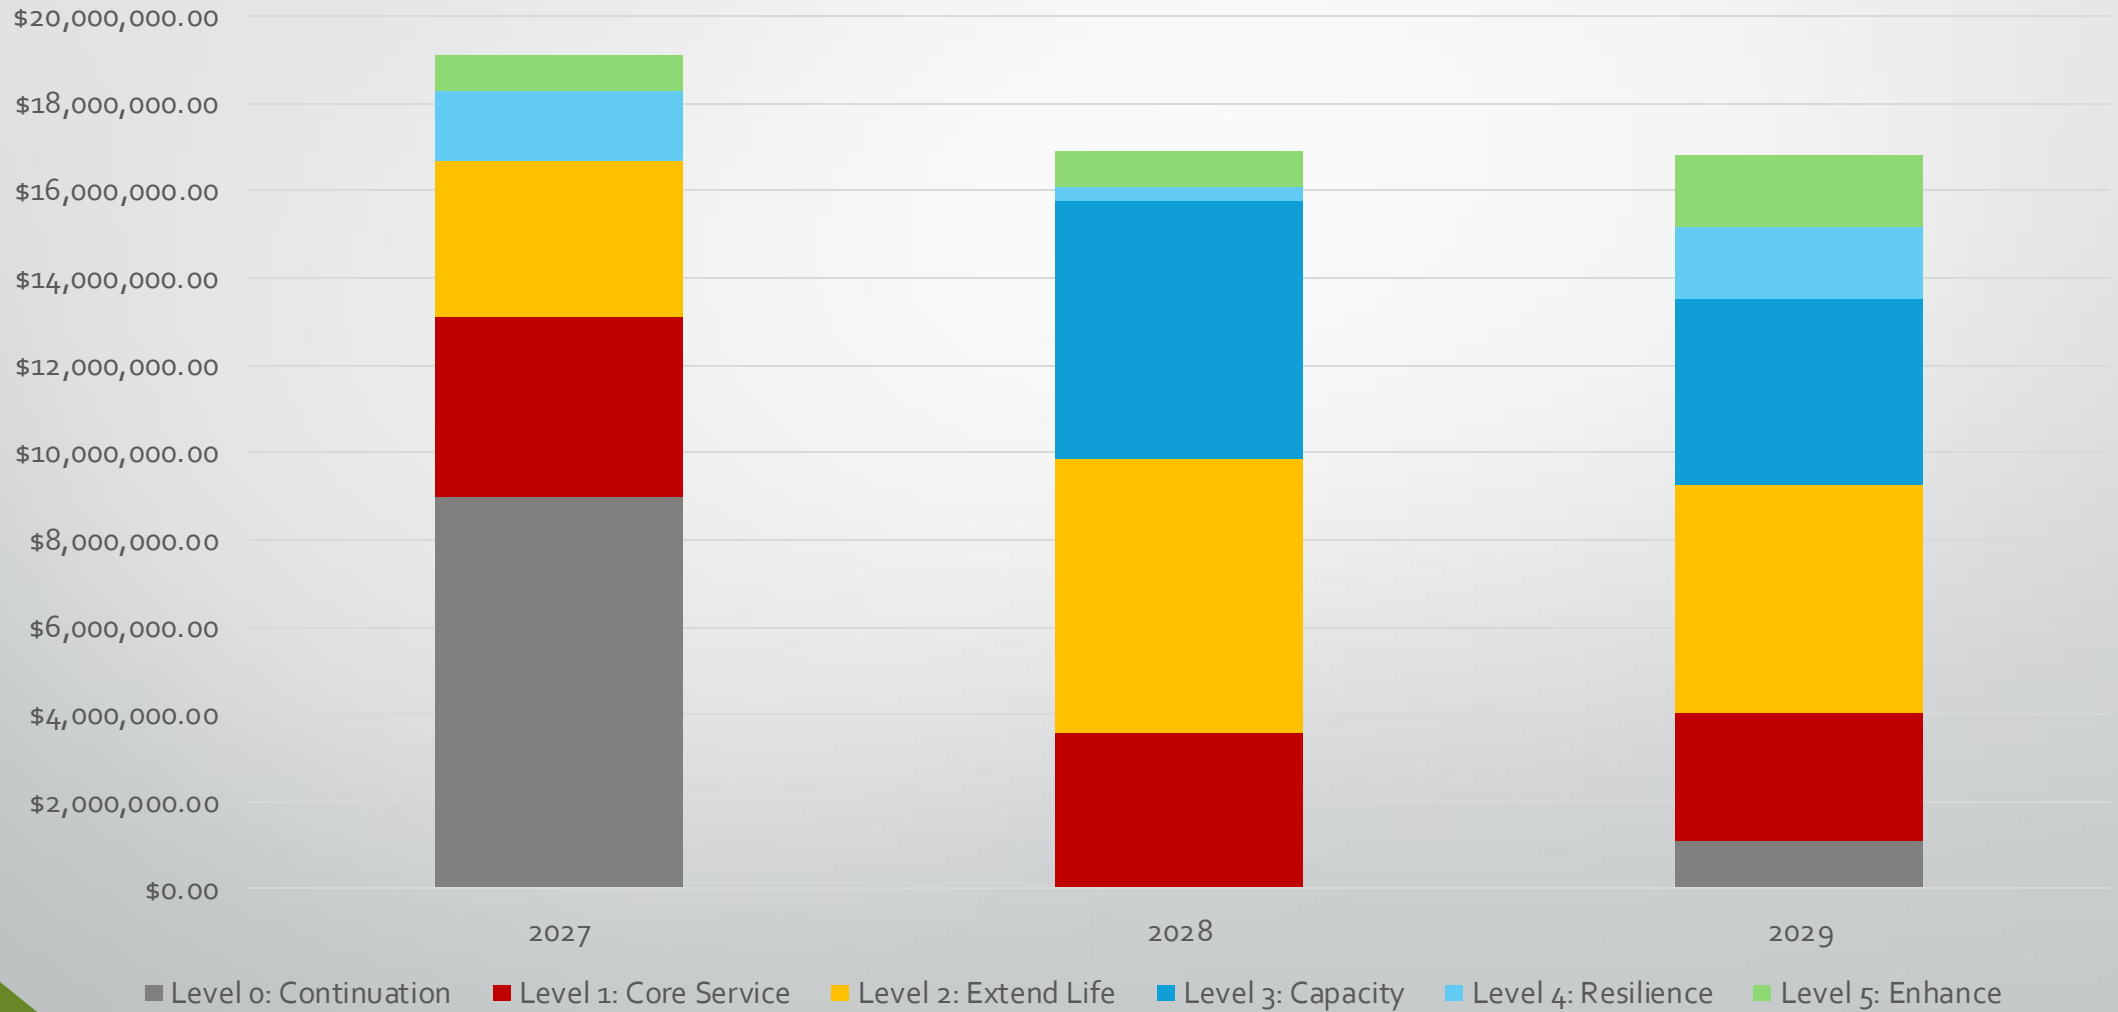

- Property Taxes:
 - \$4.4M available if raised to max rate of 0.0008
- Bond Interest Rates
 - Between 3%-4%
- UWIP Funding
 - Several projects scored well
 - Unsure about participation qualifications

Ranking Capital Projects

- Level 0 – Continuation (Year 2 of previously approved project)
- Level 1 – Maintain Core Service (replace aging facilities, replace pipe)
- Level 2 – Extend Asset Life (replace pumps, chlorinators, coatings)
- Level 3 – Capacity/Growth (upscale pipelines, construct new wells)
- Level 4 – Resilience/Redundancy (additional JV connection, generators, certain updates)
- Level 5 – Enhance Quality/Performance (water treatment, landscaping)

2027, 2028 & 2029 Project Rankings

Administrative Services

We appreciate West Valley City's support in allowing us to display our **10% LESS WATER** signs at city locations throughout the community.

Year	June Billed Consumption
2020	995,444,000
2023	702,259,003
2024	741,995,452
2025	979,204,444
2026	855,167,820

Reduced 12.7%

The June 2026 billing period showed a 12.7% reduction in water use compared to June 2025.

On June 9th, Meter Technicians worked with a water department crew to replumb two separate vaults with new 4" Octave meters at Gates at King Pointe HOA. The old meters that were removed were made in 2006.

STATEMENTS & PAYMENTS

Summary of June billing statement distribution and customer payment activity.

WASTEWATER MAINTENANCE HIGHLIGHT

Wastewater Maintenance Highlight

2026 Data:

- We had a contractor doing work for Enbridge Gas on 3500 S and 5600 W call in and report that they believed our sewer main was leaking. We arranged to meet them out on site the following night,
- After getting the pipe fully exposed where it appeared to be leaking, it was determined to be ground water following the sewer trench, or a leak that hasn't surfaced.

ADMINISTRATIVE SERVICES APPROVAL

Transparent Water Billing Grant Contract Request for Approval

The purpose of this contract is for the State of Utah to provide grant funding for 50% of the project costs, up to a maximum of \$56,000, effective July 1, 2026. To align with the State's fiscal year-end, the State has requested that GHID submit reimbursement invoices for completed work each year near June 30. However, GHID may submit reimbursement invoices more frequently if needed.

Year	Cost	50/50 Split
2026 (Year 1)	\$54,200	\$27,100
2027 (Year 2)	\$28,900	\$14,450
2028 (Year 3)	\$28,900	\$14,450

~Consider Approval of the Transparent Water Billing Grant Contract with the State of Utah.

STATE OF UTAH
CONTRACT # _____

1. **CONTRACTING PARTIES:** This contract is between the State of Utah, Department of Natural Resources, **DIVISION OF WATER RESOURCES**, referred to as STATE, and the following CONTRACTOR:

GRANGER-HUNTER IMPROVEMENT DISTRICT

2888 SOUTH 2600 WEST

WEST VALLEY CITY, UTAH 84119

Vendor # 00807H

Legal Status of Contractor:

- ☐ Sole Proprietor
☐ Non-Profit Corporation
☐ For Profit Corporation
☐ Partnership
☒ Governmental Agency

Federal Tax ID# _____

2. **GENERAL PURPOSE OF CONTRACT:** The general purpose of this contract is to provide grant funds for a transparent water billing pilot project.

3. **PROCUREMENT:** This contract is entered into as a result of the procurement process through:
Grant .

4. **CONTRACT PERIOD:** Contract is effective July 1, 2026 and will terminate February 1, 2030, unless otherwise terminated or extended in accordance with the terms and conditions of this contract.

5. **CONTRACT COSTS:** The CONTRACTOR will be paid 50% of the cost of the project, up to a maximum of \$56,000 for costs authorized by this contract.

6. **ATTACHMENTS INCLUDED AS A PART OF THIS CONTRACT:**

Attachment A – Standard Terms and Conditions

Attachment B – Proposal

Conflicts between Attachment A and other Attachments added will be resolved in favor of Attachment A.

7. **DOCUMENTS INCORPORATED INTO THIS CONTRACT BY REFERENCE BUT NOT ATTACHED:**
All other governmental laws, regulations, or actions applicable to services authorized by this contract.

IN WITNESS WHEREOF, the parties sign and cause this contract to be executed.

ATTACHMENT A: STATE OF UTAH AGENCY STANDARD TERMS AND CONDITIONS FOR GOODS AND/OR SERVICES

These terms and conditions may only be used when both parties are government entities or political subdivisions as defined in the Utah Government Immunity Act.

1. **DEFINITIONS:** The following terms shall have the meanings set forth below:
 - a) **"Confidential Information"** means information that is deemed as confidential under applicable state and federal laws, and personal data as defined in Utah Code 63A-19-101. The State Entity reserves the right to identify, during and after this Contract, additional reasonable types of categories of information that must be kept confidential under federal and state laws.
 - b) **"Contract"** means the Contract Signature Page(s), including all referenced attachments and documents incorporated by reference. The term "Contract" shall include any purchase orders that result from this Contract.
 - c) **"Contract Signature Page(s)"** means the State of Utah cover page(s) that the State Entity and Contractor signed.
 - d) **"Contractor"** means the individual or entity delivering the Procurement Item identified in this Contract. The term "Contractor" shall include Contractor's agents, officers, employees, and partners.
 - e) **"Custom Deliverable"** means the Work Product that Contractor is required to deliver to the State Entity under this Contract.
 - f) **"Goods"** means all types of tangible personal property, including but not limited to materials, supplies, Custom Deliverable, and equipment that Contractor is required to deliver to the State Entity under this Contract.
 - g) **"Procurement Item"** means Goods, a supply, Services, Custom Deliverable, construction, or technology that Contractor is required to deliver to the State Entity under this Contract.
 - h) **"Response"** means the Contractor's bid, proposals, quote, or any other document used by the Contractor to respond to the State Entity's Solicitation.
 - i) **"Services"** means the furnishing of labor, time, or effort by Contractor pursuant to this Contract. Services include those professional services identified in Section 63G-6a-103 of the Utah Procurement Code
 - j) **"Solicitation"** means an invitation for bids, request for proposals, notice of a sole source procurement, request for statement of qualifications, request for information, or any document used to obtain bids, proposals, pricing, qualifications, or information for the purpose of entering into this Contract.
 - k) **"State Entity"** means the department, division, office, bureau, agency, or other organization identified on the Contract Signature Page(s).
 - l) **"State of Utah"** means the State of Utah, in its entirety, including its institutions, agencies, departments, divisions, authorities, instrumentalities, boards, commissions, elected or appointed officers, employees, agents, and authorized volunteers.
 - m) **"Subcontractors"** means a person under contract with a contractor or another subcontractor to provide services or labor for design or construction, including a trade contractor or specialty contractor.
2. **GOVERNING LAW AND VENUE:** This Contract shall be governed by the laws, rules, and regulations of the State of Utah. Any action or proceeding arising from this Contract shall be brought in a court of competent jurisdiction in the State of Utah. Venue shall be in Salt Lake City, in the Third Judicial District Court for Salt Lake County.
3. **LAWS AND REGULATIONS:** At all times during this Contract, Contractor and all Procurement Items delivered and/or performed under this Contract will comply with all applicable federal and state constitutions, laws, rules, codes, orders, and regulations, including applicable licensure and certification requirements. If this Contract is funded by federal funds, either in whole or in part, then any federal regulation related to the federal funding, including CFR Appendix II to Part 200, will supersede this Attachment A.
4. **RECORDS ADMINISTRATION:** Contractor shall maintain or supervise the maintenance of all records necessary to properly account for Contractor's performance and the payments made by the State Entity to Contractor under this Contract. These records shall be retained by Contractor for at least six (6) years after final payment, or until all audits initiated within the six (6) years have been completed, whichever is later. Contractor agrees to allow, at no additional cost, the State of Utah, federal auditors, State Entity staff, or their designees, access to all such records during normal business hours and to allow interviews of any employees or others who might reasonably have information related to such records. Further, Contractor agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Contract.
5. **PERMITS:** If necessary Contractor shall procure and pay for all permits, licenses, and approvals necessary for the execution of this Contract.
6. **CERTIFY REGISTRATION AND USE OF EMPLOYMENT "STATUS VERIFICATION SYSTEM":** INTENTIONALLY DELETED
7. **CONFLICT OF INTEREST:** INTENTIONALLY DELETED
8. **INDEPENDENT CONTRACTOR:** Contractor and Subcontractors, in the performance of this Contract, shall act in an independent capacity and not as officers or employees or agents of the State Entity or the State of Utah.
9. **CONTRACTOR RESPONSIBILITY:** Contractor is solely responsible for fulfilling the contract, with responsibility for all Procurement Items delivered and/or performed as stated in this Contract. Contractor shall be the sole point of contact regarding all contractual matters. Contractor must incorporate Contractor's responsibilities under this Contract into every subcontract with its Subcontractors that will provide the Procurement Item(s) to the State Entity under this Contract. Moreover, Contractor is responsible for its Subcontractors compliance under this Contract.
10. **INDEMNITY:** Both parties to this agreement are Utah governmental entities as defined in the Utah Governmental Immunity Act (Utah Code Ann. 63G-7-101 et. seq.). Nothing in this Contract shall be construed as a waiver by either or both parties of any rights, limits, protections or defenses provided by the Act. Nor shall this Contract be construed, with respect to third parties,

as a waiver of any governmental immunity to which a party to this Contract is otherwise entitled. Subject to and consistent with the Act, each party will be responsible for its own actions or negligence and will defend against any claims or lawsuit brought against it. There are no indemnity obligations between these parties.

11. **EMPLOYMENT PRACTICES:** Contractor agrees to abide by the following federal and state employment laws, including: (i) Title VI and VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e), which prohibits discrimination against any employee or applicant for employment or any applicant or recipient of services on the basis of race, religion, color, or national origin; (ii) Executive Order No. 11246, as amended, which prohibits discrimination on the basis of sex; (iii) 45 CFR 90, which prohibits discrimination on the basis of age; (iv) Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act of 1990, which prohibits discrimination on the basis of disabilities; and (v) Utah's Executive Order 2019-1, dated February 5, 2019, which prohibits unlawful harassment in the workplace. Contractor further agrees to abide by any other laws, regulations, or orders that prohibit the discrimination of any kind by any of Contractor's employees.
12. **AMENDMENTS:** This Contract may only be amended by the mutual written agreement of the parties, provided that the amendment is within the Scope of Work of this Contract and is within the scope/purpose of the original solicitation for which this Contract was derived. The amendment will be attached and made part of this Contract. Automatic renewals will not apply to this Contract, even if listed elsewhere in this Contract.
13. **DEBARMENT:** Contractor certifies that it is not presently nor has ever been debarred, suspended, proposed for debarment, or declared ineligible by any governmental department or agency, whether international, national, state, or local. Contractor must notify the State Entity within thirty (30) days if debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any contract by any governmental entity during this Contract.
14. **TERMINATION:** This Contract may be terminated, with cause by either party, in advance of the specified expiration date, upon written notice given by the other party. The party in violation will be given ten (10) days after written notification to correct and cease the violations, after which this Contract may be terminated for cause immediately and subject to the remedies below. This Contract may also be terminated without cause (for convenience), in advance of the specified expiration date, by the either party, upon thirty (30) days written termination notice being given to the the other party. The State Entity and the Contractor may terminate this Contract, in whole or in part, at any time, by mutual agreement in writing.

On termination of this Contract, all accounts and payments will be processed according to the financial arrangements set forth herein for approved and conforming Procurement Items ordered prior to date of termination. In no event shall the State Entity be liable to the Contractor for compensation for any Good neither requested nor accepted by the State Entity. In no event shall the State Entity's exercise of its right to terminate this Contract for convenience relieve the Contractor of any liability to the State Entity for any damages or claims arising under this Contract.

15. **NONAPPROPRIATION OF FUNDS, REDUCTION OF FUNDS, OR CHANGES IN LAW:** Upon thirty (30) days written notice delivered to the Contractor, this Contract may be terminated in whole or in part at the sole discretion of the State Entity, if the State Entity reasonably determines that: (i) a change in Federal or State legislation or applicable laws materially affects the ability of either party to perform under the terms of this Contract; or (ii) that a change in available funds affects the State Entity's ability to pay under this Contract. A change of available funds as used in this paragraph includes, but is not limited to a change in Federal or State funding, whether as a result of a legislative act or by order of the President or the Governor.

If a written notice is delivered under this section, the State Entity will reimburse Contractor for the Procurement Item(s) properly ordered and/or services properly performed until the effective date of said notice. The State Entity will not be liable for any performance, commitments, penalties, or liquidated damages that accrue after the effective date of said written notice.

16. **SALES TAX EXEMPTION:** The Procurement Item(s) under this Contract will be paid for from the State Entity's funds and used in the exercise of the State Entity's essential functions as a State of Utah entity. Upon request, the State Entity will provide Contractor with its sales tax exemption number. It is Contractor's responsibility to request the State Entity's sales tax exemption number. It also is Contractor's sole responsibility to ascertain whether any tax deduction or benefits apply to any aspect of this Contract.
17. **WARRANTY OF PROCUREMENT ITEM(S):** Contractor warrants, represents and conveys full ownership and clear title, free of all liens and encumbrances, to the Procurement Item(s) delivered to the State Entity under this Contract. Contractor warrants for a period of one (1) year that: (i) the Procurement Item(s) perform according to all specific claims that Contractor made in its Response; (ii) the Procurement Item(s) are suitable for the ordinary purposes for which such Procurement Item(s) are used; (iii) the Procurement Item(s) are suitable for any special purposes identified in the Contractor's Response; (iv) the Procurement Item(s) are designed and manufactured in a commercially reasonable manner; (v) the Procurement Item(s) are manufactured and in all other respects create no harm to persons or property; and (vi) the Procurement Item(s) are free of defects. Unless otherwise specified, all Procurement Item(s) provided shall be new and unused of the latest model or design.

Remedies available to the State Entity under this section are limited to the following: Contractor will repair or replace Procurement Item(s) at no charge to the State Entity within a reasonable time of any written notification informing Contractor of the Procurement Item(s) not performing as required under this Contract. If the repaired and/or replaced Procurement Item(s) prove to be inadequate, or fail its essential purpose, Contractor will refund the full amount of any payments that have been made.

18. **CONTRACTOR'S INSURANCE RESPONSIBILITY:** INTENTIONALLY DELETED
19. **RESERVED.**
20. **PUBLIC INFORMATION:** Contractor agrees that this Contract, related purchase orders, related pricing documents, and invoices will be public documents and may be available for public and private distribution in accordance with the State of Utah's Government Records Access and Management Act (GRAMA). Contractor gives the State Entity and the State of Utah express permission to make copies of this Contract, related sales orders, related pricing documents, and invoices in accordance with GRAMA. Except for sections identified in writing by Contractor and expressly approved by the State of Utah Division of Purchasing and General Services, Contractor also agrees that the Contractor's Response will be a public

document, and copies may be given to the public as permitted under GRAMA. The State Entity and the State of Utah are not obligated to inform Contractor of any GRAMA requests for disclosure of this Contract, related purchase orders, related pricing documents, or invoices.

21. **DELIVERY:** All deliveries under this Contract will be F.O.B. Destination Freight Prepaid and Allowed, unless specifically negotiated otherwise and explicitly written in this contract, with all transportation and handling charges paid for by Contractor. Responsibility and liability for loss or damage will remain with Contractor until final inspection and acceptance when responsibility will pass to the State Entity, except as to latent defects or fraud. Contractor shall strictly adhere to the delivery and completion schedules specified in this Contract.
22. **ACCEPTANCE AND REJECTION:** The State Entity shall have thirty (30) days after delivery of the Procurement Item(s) to perform an inspection of the Procurement Item(s) to determine whether the Procurement Item(s) conform to the standards specified in the Solicitation and this Contract prior to acceptance of the Procurement Item(s) by the State Entity.

If Contractor delivers nonconforming Procurement Item(s), the State Entity may, at its option and at Contractor's expense: (i) return the Procurement Item(s) for a full refund; or (ii) require Contractor to promptly correct or replace the nonconforming Procurement Item(s). Contractor shall not redeliver corrected or rejected Procurement Item(s) without: first, disclosing the former rejection or requirement for correction; and second, obtaining written consent of the State Entity to redeliver the corrected Procurement Item(s). Repair, replacement, and other correction and redelivery shall be subject to the terms of this Contract.
23. **INVOICING:** Contractor will submit invoices within thirty (30) days of the delivery date of the Procurement Item(s) to the State Entity. The contract number shall be listed on all invoices, freight tickets, and correspondence relating to this Contract. The prices paid by the State Entity will be those prices listed in this Contract, unless Contractor offers a prompt payment discount within its Response or on its invoice. The State Entity has the right to adjust or return any invoice reflecting incorrect pricing.
24. **PAYMENT:** Payments are to be made within thirty (30) days after a correct invoice is received. All payments to Contractor will be remitted by mail, electronic funds transfer, or the State of Utah's Purchasing Card (major credit card). If payment has not been made after sixty (60) days from the date a correct invoice is received by the State Entity, then interest may be added by Contractor as prescribed in the Utah Prompt Payment Act. The acceptance by Contractor of final payment, without a written protest filed with the State Entity within ten (10) business days of receipt of final payment, shall release the State Entity and the State of Utah from all claims and all liability to the Contractor. The State Entity's payment for the Procurement Item(s) and/or services shall not be deemed an acceptance of the Procurement Item(s) and is without prejudice to any and all claims that the State Entity or the State of Utah may have against Contractor. The State of Utah and the State Entity will not allow the Contractor to charge end users electronic payment fees of any kind.
25. **INDEMNIFICATION RELATING TO INTELLECTUAL PROPERTY:** INTENTIONALLY DELETED
26. **OWNERSHIP IN INTELLECTUAL PROPERTY:** The State Entity and Contractor each recognizes that each has no right, title, or interest, proprietary or otherwise, in the intellectual property owned or licensed by the other, unless otherwise agreed upon by the parties in writing. All Procurement Item(s), documents, records, programs, data, articles, memoranda, and other materials not developed or licensed by Contractor prior to the execution of this Contract, but specifically manufactured under this Contract shall be considered work made for hire, and Contractor shall transfer any ownership claim to the State Entity. Contractor shall have the right to publish, upon prior written approval of the State Entity which may not unreasonably be withheld, the results of the project.
27. **OWNERSHIP IN CUSTOM DELIVERABLES:** INTENTIONALLY DELETED
28. **ASSIGNMENT:** Contractor may not assign, sell, transfer, subcontract or sublet rights, or delegate any right or obligation under this Contract, in whole or in part, without the prior written approval of the State Entity.
29. **REMEDIES:** Any of the following events will constitute cause for the State Entity to declare Contractor in default of this Contract: (i) Contractor's non-performance of its contractual requirements and obligations under this Contract; or (ii) Contractor's material breach of any term or condition of this Contract. The State Entity may issue a written notice of default providing a ten (10) day period in which Contractor will have an opportunity to cure. Time allowed for cure will not diminish or eliminate Contractor's liability for damages. If the default remains after Contractor has been provided the opportunity to cure, the State Entity may do one or more of the following: (i) exercise any remedy provided by law or equity; (ii) terminate this Contract; (iii) impose liquidated damages, if liquidated damages are listed in this Contract; (iv) debar/suspend Contractor from receiving future contracts from the State Entity or the State of Utah; or (v) demand a full refund of any payment that the State Entity has made to Contractor under this Contract for Procurement Item(s) that do not conform to this Contract.
30. **FORCE MAJEURE:** Neither party to this Contract will be held responsible for delay or default caused by fire, riot, act of God, and/or war which is beyond that party's reasonable control. The State Entity may terminate this Contract after determining such delay will prevent successful performance of this Contract.
31. **CONFIDENTIALITY:** If Contractor has access to or processes Confidential Information, Contractor shall: (i) advise its agents, officers, employees, partners, and Subcontractors of the obligations set forth in this Contract; (ii) keep all Confidential Information strictly confidential; and (iii) comply with any requirements contained in the contract regarding permitted uses and disclosures of personal data, measures designed to safeguard personal data, and the destruction of personal data. Contractor will promptly notify the State Entity of any potential or actual misuse or misappropriation of Confidential Information, including any data breaches, in accordance with UCA 63A-19 Government Data Privacy Act. In Accordance with UCA 63A-19, Contractor must comply with all the same requirements regarding personal data as the State.

Written Confidential Information shall be clearly marked as "confidential." If certain Confidential Information has not been reduced to written form at the time of disclosure by the State Entity, then such orally disclosed information shall be protected by the Contractor as Confidential Information, provided that the State Entity shall: (i) provide a statement to the Contractor that the oral information shall be protected under this Agreement; and (ii) within thirty (30) days of such disclosure, reduce to

writing a summary of the orally disclosed Confidential Information.

Contractor shall be responsible for any breach of this duty of confidentiality, including any required remedies and/or notifications under applicable law. Contractor shall indemnify, hold harmless, and defend the State Entity and the State of Utah, including anyone for whom the State Entity or the State of Utah is liable, from claims related to a breach of this duty of confidentiality, including any notification requirements, by Contractor or anyone for whom the Contractor is liable.

Upon termination or expiration of this Contract, Contractor will return all copies of Confidential Information to the State Entity or certify, in writing, that the Confidential Information has been destroyed. This duty of confidentiality shall be ongoing and survive the termination or expiration of this Contract.

32. **PUBLICITY:** Contractor shall submit to the State Entity for written approval all advertising and publicity matters relating to this Contract. It is within the State Entity's sole discretion whether to provide approval, which approval must be in writing.
33. **WORK ON STATE OF UTAH OR ELIGIBLE USER PREMISES:** Contractor shall ensure that personnel working on State of Utah premises shall: (i) abide by all of the rules, regulations, and policies of the premises; (ii) remain in authorized areas; (iii) follow all instructions; and (iv) be subject to a background check, prior to entering the premises. The State of Utah or Eligible User may remove any individual for a violation hereunder.
34. **CONTRACT INFORMATION:** INTENTIONALLY DELETED
35. **WAIVER:** A waiver of any right, power, or privilege shall not be construed as a waiver of any subsequent right, power, or privilege.
36. **SUSPENSION OF WORK:** Should circumstances arise which would cause the State Entity to suspend Contractor's responsibilities under this Contract, but not terminate this Contract, this will be done by formal written notice pursuant to the terms of this Contract. Contractor's responsibilities may be reinstated upon advance formal written notice from the State Entity.
37. **CHANGES IN SCOPE:** Any changes in the scope of the Procurement Item(s) to be performed under this Contract shall be in the form of a written amendment to this Contract, mutually agreed to and signed by both parties, specifying any such changes, fee adjustments, any adjustment in time of performance, or any other significant factors arising from the changes in the scope of the Procurement Item(s).
38. **PROCUREMENT ETHICS:** Contractor understands that a person who is interested in any way in the sale of any, Procurement Item(s), supplies, , construction, or insurance to the State of Utah is violating the law if the person gives or offers to give any compensation, gratuity, contribution, loan, reward, or any promise thereof to any person acting as a procurement officer on behalf of the State of Utah, or to any person in any official capacity who participates in the procurement of such Procurement Item(s), supplies, , construction, or insurance, whether it is given for their own use or for the use or benefit of any other person or organization.
39. **ATTORNEY'S FEES:** INTENTIONALLY DELETED
40. **TRAVEL COSTS:** If travel expenses are permitted by the Solicitation, then all travel costs associated with the delivery of Procurement Item(s) under this Contract will be paid according to the rules and per diem rates found in the Utah Administrative Code R25-7. Invoices containing travel costs outside of these rates will be returned to Contractor for correction.
41. **DISPUTE RESOLUTION:** INTENTIONALLY DELETED
42. **ORDER OF PRECEDENCE:** In the event of any conflict in the terms and conditions in this Contract, the order of precedence shall be: (i) this Attachment A; (ii) Contract Signature Page(s); (iii) the State of Utah's additional terms and conditions, if any; (iv) any other attachment listed on the Contract Signature Page(s); and (v) Contractor's terms and conditions that are attached to this Contract, if any. Any provision attempting to limit the liability of Contractor or limit the rights of the State Entity or the State of Utah must be in writing and attached to this Contract or it is rendered null and void.
43. **SURVIVAL OF TERMS:** Termination or expiration of this Contract shall not extinguish or prejudice the State Entity's right to enforce this Contract with respect to any default of this Contract or defect in the Procurement Item(s) that has not been cured, or of any of the following clauses, including: Governing Law and Venue, Laws and Regulations, Records Administration, Remedies, Dispute Resolution, Indemnity, Newly Manufactured, Indemnification Relating to Intellectual Property, Warranty of Procurement Item(s), Insurance.
44. **SEVERABILITY:** The invalidity or unenforceability of any provision, term, or condition of this Contract shall not affect the validity or enforceability of any other provision, term, or condition of this Contract, which shall remain in full force and effect.
45. **ERRORS AND OMISSIONS:** Contractor shall not take advantage of any errors and/or omissions in this Contract. The Contractor must promptly notify the State of any errors and/or omissions that are discovered.
46. **ENTIRE AGREEMENT:** This Contract constitutes the entire agreement between the parties and supersedes any and all other prior and contemporaneous agreements and understandings between the parties, whether oral or written.
47. **ANTI-BOYCOTT ACTIONS:** In accordance with Utah Code 63G-27 et seq., Contractor certifies that it is not currently engaged in any "economic boycott" nor a "boycott of the State of Israel" as those terms are defined in Section 63G-27-102. Contractor further certifies that it has read and understands 63G-27 et. seq., that it will not engage in any such boycott action during the term of this Contract, and that if it does, it shall promptly notify the State in writing.
48. **TIME IS OF THE ESSENCE:** The Procurement Item(s) shall be completed by any applicable deadline stated in this Contract. For all Procurement Item(s), time is of the essence. Contractor shall be liable for all reasonable damages to the State Entity, the State of Utah, and anyone for whom the State of Utah may be liable as a result of Contractor's failure to timely perform the Procurement Item(s) required under this Contract.
49. **PERFORMANCE EVALUATION:** The State Entity may conduct a performance evaluation of Contractor's Procurement Item(s), including Contractor's Subcontractors. Results of any evaluation may be made available to Contractor upon request.

50. **STANDARD OF CARE:** The Procurement Item(s) of Contractor and its Subcontractors shall be performed in accordance with the standard of care exercised by licensed members of their respective professions having regular experience providing similar Procurement Item(s) which similarities include the type, magnitude, and complexity of the Procurement Item(s) that are the subject of this Contract. Contractor shall be liable to the State Entity and the State of Utah for claims, liabilities, additional burdens, penalties, damages, or third-party claims (e.g., another Contractor's claim against the State of Utah), to the extent caused by wrongful acts, errors, or omissions that do not meet this standard of care.
51. **REVIEWS:** The State Entity reserves the right to perform plan checks, plan reviews, other reviews, and/or comment upon the Procurement Item(s) of Contractor. Such reviews do not waive the requirement of Contractor to meet all of the terms and conditions of this Contract.
52. **Restricted Foreign Entities and Forced Labor:** In accordance with Utah law, Contractors contracting with the State certify that they are not providing a "forced labor product" as defined in Utah Code 63G-6a-121. If the Contractor is providing technology or technology services, networks, or systems, the Contractor certifies that the aforementioned does not come from a "restricted foreign entity," as also defined in UCA 63G-6a-121.

Transparent Water Billing Grant Proposal

Abstract

Granger-Hunter Improvement District (GHID) is committed to being responsible stewards of water by delivering clean and safe drinking water for daily use and collecting wastewater to protect public health and our environment. We recognize that water conservation is essential to supporting our customers and meeting both current and future water demands.

To better support conservation efforts, Granger-Hunter Improvement District is focusing on providing customers with better tools and more transparent billing to monitor and understand their water usage with easy access to viewing water consumption and leak notifications. To accomplish this, GHID has selected a new customer portal, 360S2G/Util360, to enhance customer communication, education, and conservation. 360S2G offers more than 16 years of experience with customer portals, public events, and excellent off-the-shelf but configurable products, while also providing the most cost-effective five-year price of all the software packages that were selected for a demonstration.

Through the Transparent Water Billing Grant, GHID will be able to implement tools that empower customers to better understand water usage, reduce unnecessary water loss, and strengthen conservation throughout the community. With this new portal, we anticipate continuing to reduce our per capita water to meet our 2040 goal of 139 gpcd.

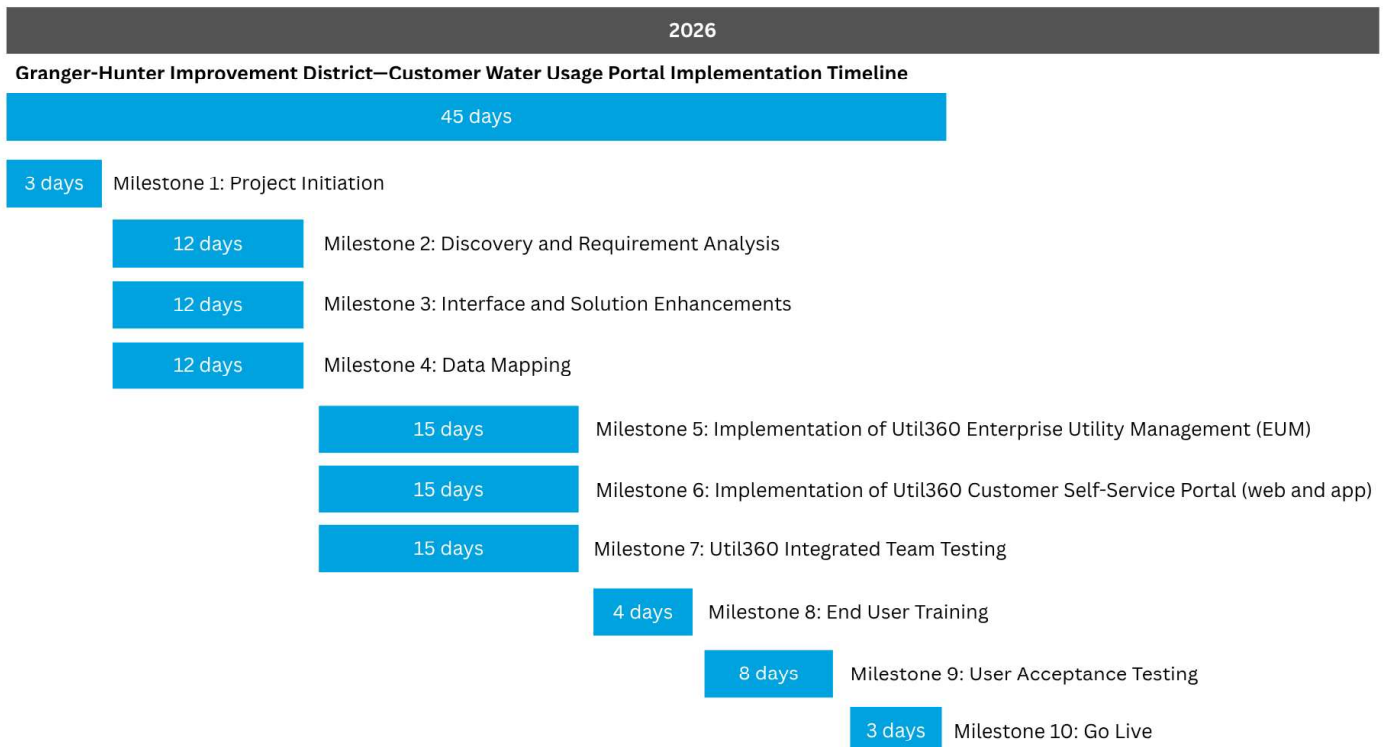

Budget and Implementation Timeline

The Year 1 costs for 360S2G are \$25,300 for implementation and \$28,900 for hosting, licensing, and support, for a total cost of \$54,200.00. Each subsequent year is \$28,900.00 for licensing, hosting, and support. The total projected cost over the three-year period is \$112,000, with an anticipated 50% cost-share contribution from the grant of \$56,000.

The table below shows a five-year cost schedule:

Year	Cost
2026 (Year 1)	\$54,200
2027 (Year 2)	\$28,900
2028 (Year 3)	\$28,900
2029 (Year 4)	\$28,900
2030 (Year 5)	\$28,900
Five-Year Total	\$169,800

The following outlines the projected implementation timeline for the customer water usage portal, which can begin upon Board approval and be completed in as little as 45 days.

Plans for Implementation of Water-Use Reduction Strategies

Once the customer portal development process has commenced, GHID will launch a phased communication plan to inform customers of the new portal, its water conservation benefits, and its transparent billing features. Details of the plan are provided below:

- **Pre-Launch Awareness**—GHID will notify customers approximately 30 days before the new water usage portal launches. Communication methods may include the following:
 - Website announcements and homepage banners
 - Social media posts
 - Bill inserts and bill messages
 - Email notifications
 - Office signage and handout
 - Customer contact information updating opportunities

Messaging will focus on the benefits of the portal, including easier access to water usage information and alerts, conservation tools, rebate information, and mobile app availability.

- **Launch Communication**—At launch, GHID will encourage customers to register and begin using the portal through the following methods:
 - Email invitations
 - Website links and QR codes
 - Social media posts
 - Step-by-step registration instructions
 - Assistance from office staff when interacting with customers
 - Ongoing customer engagement
- **Following Launch**—GHID will continue promoting portal use by engaging with new customers and continue sharing the following to all customers:
 - Seasonal water information
 - Leak alert education (especially when shutting down a stop & waste for the winter)
 - Information about portal features and benefits

GHID will also monitor portal engagement analytics to evaluate customer participation and identify the most frequently used features for more precise targeting.

Implementation of Water-Use Reduction Strategies

GHID plans on using the new customer portal to implement water-use reduction strategies, with the primary conservation feature being an automated alert system that notifies customers when their water usage is approaching the next billing tier. We believe this proactive approach will be highly effective, as many customers are unaware they are overusing water until they receive their bill weeks later. Providing real-time or near real-time notifications will allow customers to make immediate adjustments and reduce unnecessary water consumption.

Customer Efficiencies and Incentives. In addition, the portal dashboard will include direct links to available conservation rebates, incentives, and water-saving resources, helping customers more easily identify opportunities to improve water efficiency at their homes and businesses. The platform will also support and reinforce regional conservation initiatives such as Utah’s “Slow the Flow” campaign by providing timely seasonal watering guidance, irrigation best practices, and actionable conservation recommendations directly tied to customer water use patterns.

GHID views this effort as more than simply a technology upgrade, it is an opportunity to strengthen customer engagement, improve awareness, and empower residents with practical tools to better manage water use. By connecting customers directly to conservation programs, leak notifications, usage trends, and efficiency resources in one accessible location, the District can promote long-term behavioral water savings while improving customer service and system accountability.

This project will help create a more informed and conservation-minded community while supporting GHID’s broader goals of sustainable water management, reduced non-revenue water, and responsible stewardship of limited water resources.

Customer Analytics & Notifications. Customers will also be able to enter household and property information, such as family size and irrigated landscape area, to produce a more accurate water budget as well as compare their water use against recommended usage levels and neighborhood averages. These personalized comparisons and social norming are intended to encourage more efficient water use and increase customer awareness of conservation goals. By helping customers understand how their water use compares to similar households and recommended efficiency targets, the program promotes informed decision-making and long-term conservation behavior.

GHID currently operates a continuous flow program in which staff attempt to contact customers whose meter shows constant water usage that may indicate a leak. However, the current system has limitations and does not always identify or communicate continuous flow conditions as quickly as desired. Improving the speed and accuracy of leak identification and customer

notification will help reduce unnecessary water loss, improve customer responsiveness, and strengthen overall system conservation efforts. These enhancements will also support a more strategic and proactive Leak Detection Campaign by enabling targeted outreach based on real-time usage patterns and customer behavior. The new portal will provide enhanced leak detection capabilities, including immediate customer notifications and integrated messaging with guidance on how to quickly identify and resolve potential leaks. Notifications can be delivered through email, text message, or automatically generated postcards for mailing, allowing GHID to communicate more effectively and improve response times to potential water loss issues. This functionality also includes notifications for abnormally high usage as well. By improving communication speed and providing customers with actionable information, the system is expected to reduce prolonged leak events, minimize preventable water loss, and strengthen customer participation in conservation efforts.

Strategy to Evaluate Outdoor Water Use Reductions

GHID currently estimates outdoor water use by analyzing average customer consumption during the non-summer months and attributing any increase in usage during the summer months to outdoor irrigation. Based on this methodology, 2025 water use was estimated at 42.22% indoor usage and 57.78% outdoor usage. The new portal will provide a more refined estimate of indoor versus outdoor water consumption through advanced analytics that evaluate customer usage patterns and trends. By giving customers real-time or near real-time visibility into their water use, the portal will serve as an effective demand management tool that promotes water-use efficiency, encourages conservation-minded behaviors, helps reduce overall consumption, and supports peak day demand reduction efforts.

Additionally, the portal will enable targeted messaging to high water users, providing personalized recommendations and information on efficient and optimal water use practices. This enhanced customer engagement approach will allow GHID to proactively work with customers on conservation opportunities while improving overall awareness of water use habits and long-term resource stewardship.

Improvement of Water-Use Communication Methods

The new portal will improve GHID's ability to communicate with customers regarding water conservation and water-use efficiency. The system will allow GHID to send targeted pop-up

notifications, conservation tips, usage reports, seasonal watering recommendations, and information about new water-saving programs directly through the portal interface.

The portal will also include a bill explainer feature designed to help customers better understand their water charges, billing tiers, and consumption patterns. By improving transparency and customer understanding, GHID hopes to encourage more informed water-use decisions.

Collection and Reporting of Customer Data and Information

GHID anticipates the portal will have the capability to integrate with the District's billing system, payment platform, and possibly new account setup process to help maintain the most current customer contact information possible, including email addresses and mobile phone numbers for text notifications.

Additionally, because GHID implemented a new payment system last year, many customers recently updated their contact information, providing the District with a strong repository of current customer communication data. This updated information will improve the effectiveness and reliability of customer notifications, outreach efforts, and conservation messaging associated with the new portal system.

The portal is designed to provide customer engagement analytics and reporting capabilities, including tracking the number of customers accessing the portal and identifying contact method preferences. These analytics will help GHID evaluate customer participation and improve outreach efforts over time. This data can be shared with the Division of Water Resources to show that the District is able to provide measurable performance metrics, customer engagement data, and quantifiable conservation program outcomes. These insights will support data-driven decision-making to refine programs, allocate resources more effectively, and enhance overall customer experience.

Rate of User Engagement in Customer Portal

GHID previously offered a customer water-use portal through its meter provider; however, that platform is being discontinued and experienced limited customer engagement due to limited functionality. In developing this new portal, GHID has prioritized ease of access and customer convenience to improve participation rates.

Planned features to increase engagement include Single Sign-On (SSO) integration with the customer payment system that is used by over 63% of GHID customers, a mobile app available across multiple platforms, direct access through the District website, and the ability for office staff to send customers direct portal access links. GHID believes these improvements will substantially reduce barriers to use and increase long-term customer engagement with water conservation tools and information.

Advancing Transparent Water Use Management

On behalf of the Granger-Hunter Improvement District Board, management, and staff, we respectfully request your consideration of this Transparent Water Billing grant proposal. Funding support for this project will significantly enhance GHID's ability to provide customers with reliable, user-friendly tools that promote greater awareness of water use, encourage conservation, and improve access to timely account, usage, and leak information.

Over the past five years, GHID has made water loss reduction a key operational priority. The District has established a dedicated water loss task force that regularly evaluates potential sources of water loss and identifies strategies to improve system efficiency and reduce waste. These efforts have included meter replacement programs, engagement with leak detection consultants, ongoing analysis of system data, field investigations, and targeted customer outreach initiatives. The proposed portal will further support these efforts by providing enhanced reporting capabilities, improved data analytics, and more timely customer communication tools. Our results are best indicated in our overall reduction of our per capita water use per day from 168 GPCD in 2020 to 148 gpcd in 2025. This new portal will be instrumental in our plan to meet our 2040 goal of 139 gpcd.

By investing in these enhanced customer resources, this project will strengthen communication, improve customer engagement, and support responsible stewardship of one of our community's most valuable resources. We appreciate your consideration and the opportunity to continue advancing water conservation and customer service efforts throughout the District.

Attention: Evaluation Committee

2888 South 3600 West

West Valley City, UT 84119

Subject: Proposal Submission for Customer Water Usage Portal Replacement

Dear Evaluation Committee,

We are pleased to submit our proposal in response to the Granger-Hunter Improvement District (“District”) for **the Customer Water Usage Portal Replacement (RFP #26K)**. At 360S2G, we specialize in delivering secure, intuitive, cloud-native customer engagement portals that empower utility customers with near real-time access to water usage data, consumption history, and proactive alerts. Our deep expertise in utility customer self-service solutions, combined with a proven record of successful public-sector implementations, positions us well to deliver a modern portal that enhances transparency, promotes conservation awareness, and improves customer engagement for the District.

2. Section 1 – Vendor Information

2.1. Company History

360S2G is a U.S.-based technology firm specializing in cloud-native enterprise platforms for customer engagement, utility self-service, operational visibility, and data-driven reporting. With more than 16 years of experience partnering with municipalities, utilities, and public-sector organizations nationwide, we deliver secure, configurable, and user-friendly solutions that improve customer access to utility information, support digital service delivery, and promote informed decision-making.

Our flagship solution, Util360, is a fully hosted customer and utility engagement platform built on Amazon Web Services (AWS) and designed to meet the service, communication, and digital access needs of modern municipal organizations. Util360 centralizes customer-facing access to water usage data, account visibility, notifications, and related utility information into a single platform, helping eliminate fragmented user experiences and improve adoption of digital self-service tools.

The platform provides real-time or near real-time visibility into customer utility usage and engagement, supporting coordination between utility staff, customer service representatives, and administrative personnel. Util360 supports the district’s objectives by enabling:

- Customer self-service access to water usage and account-related information
- Hourly, daily, weekly, and billing-cycle consumption visibility
- High usage, continuous flow, and threshold-based alerting
- Mobile-responsive access and intuitive user experience
- Integration with utility systems, AML platforms, and customer service workflows
- Secure cloud hosting, reporting, and configurable administrative controls

The 360S2G project team brings extensive experience in implementing customer-facing utility portals and related digital engagement solutions for municipalities, utilities, and public-sector agencies. Our team members have successfully supported clients through all phases of deployment, from requirements refinement and system configuration to hosted deployment, user onboarding, training, and ongoing post-go-live support.

Our Client Engagement, Project Management, and Technical Services divisions work collaboratively with District personnel to ensure a seamless transition, timely delivery, and long-term success of the new Customer Water Usage Portal.

2.1.1. History of Similar Projects

360S2G has successfully delivered and supported customer-facing utility portals and related digital engagement solutions for public-sector organizations seeking to improve customer access to account and usage information, streamline communication, and modernize service delivery. Our experience includes implementations involving customer self-service functionality, secure hosted deployment, mobile-responsive access, integration with utility and payment ecosystems, and real-time or near real-time visibility into utility-related data.

Across these projects, 360S2G has helped public agencies improve customer engagement by providing intuitive dashboards, proactive notifications, configurable alerts, and accessible digital experiences that support both customer convenience and operational efficiency. This experience positions 360S2G to deliver a modern Customer Water Usage Portal for the District that is secure, user-friendly, and aligned with the District’s service goals.

2.2. Contact Information and Office Location

Item	Details
➤ Company Name	Etech-360 Inc DBA 360S2G
➤ Corporate Address:	555 California St, San Francisco, CA 94104
➤ Authorized Representative	Amanda Gutierrez, SVP Client Engagement
➤ Telephone	(415) 360-0498 ext. 131
➤ Fax	N/A
➤ Email	amanda.g@360s2g.com
➤ Website	https://360s2g.com/

2.3. Familiarity with the District's Facilities and Operations

360S2G understands that the **district operates a critical water and wastewater utility environment** that supports a large residential customer base and depends on reliable infrastructure, accurate usage data, and effective customer communication. We recognize that the district's operations are not limited to utility service delivery alone, but also include the need to provide customers with convenient, secure, and user-friendly access to their water usage information.

Based on our review of the RFP, 360S2G understands that the district is seeking to replace its existing **customer water usage portal** with a modern, hosted solution that improves customer visibility into water consumption, supports proactive **usage alerts and notifications**, and encourages stronger customer engagement and conservation awareness. We also understand that the proposed solution must align with the district's existing operational environment, including integration with **Sensus AMI / Analytics** data and support for a streamlined customer experience.

Our team is familiar with the operational needs commonly associated with public-sector utility organizations, including the importance of **system reliability**, intuitive customer self-service, mobile accessibility, secure hosted deployment, and minimal disruption to internal staff during implementation. We also understand the importance of providing District personnel with administrative visibility and manageable tools that support customer service, communication, and long-term platform adoption.

This familiarity enables 360S2G to deliver a solution that is not only technically aligned with the district's environment, but also practical, customer-focused, and responsive to the district's service and operational goals.

2.4. Utah Client Experience and References

At this time, **360S2G has not yet completed a customer water usage portal implementation for a Utah-based Special Service District or City providing water service**. However, we have successfully delivered and supported **similar public-sector and utility-related solutions** for municipalities and government agencies in other jurisdictions, including projects involving **customer self-service**, hosted deployment, secure cloud architecture, digital engagement, and integration with utility-related systems.

Our experience includes delivering configurable, customer-facing platforms that improve **access to usage and account information**, support proactive communication, and provide intuitive digital experiences for both customers and utility staff. These projects have included implementations designed to improve transparency, streamline service delivery, and support long-term adoption of digital utility tools.

While our Utah-specific portfolio is currently limited, our broader experience serving **municipal and utility organizations across the United States** provides a strong and directly relevant foundation for supporting the District's Customer Water Usage Portal Replacement project. 360S2G's implementation methodology, hosted delivery model, and customer engagement capabilities are fully transferable to the District's operating environment and service goals.

2.4.1. References

360S2G provides the following three (3) references for projects involving **customer portal implementation, integration, training, and testing services** completed within the past five (5) years. These references reflect our experience supporting public-sector and utility-related organizations through secure hosted deployments, customer-facing digital solutions, and related implementation services.

<Redacted Information>

2.5. Customer Service Available from Vendor

360S2G provides responsive and structured **customer service and post-implementation support** to help ensure the long-term success of each client deployment. Our support model is designed to provide timely assistance to both administrative users and designated client personnel following implementation and go-live.

Customer service is delivered through a combination of **email, phone, and remote support channels**, allowing client staff to report issues, request assistance, and receive guidance related to system use, access, configuration, and general

platform functionality. Support requests are managed through a defined service process to ensure inquiries are tracked, prioritized, and addressed in a consistent and timely manner.

In addition to issue resolution, 360S2G provides support for **user questions, basic troubleshooting, platform guidance, and ongoing operational assistance** as needed. Our team also supports clients with solution updates, enhancement discussions, and post-go-live stabilization activities to help maintain platform usability and adoption over time.

360S2G's Client Engagement, Technical Services, and Project Management teams work collaboratively to provide a dependable support experience and ensure the District has access to knowledgeable resources throughout the lifecycle of the solution.

3. Section 2 – Proposed Solution

3.1. Proposed Solution and Capabilities

360S2G proposes **Util360 Customer Water Usage Portal**, a secure, cloud-hosted, and customer-focused digital platform designed to replace the District's existing customer water usage portal with a more modern, intuitive, and scalable solution. The proposed portal is designed to provide District customers with convenient access to detailed water consumption information, proactive notifications, and improved digital self-service capabilities, while also giving District staff the administrative visibility and tools needed to support customer engagement and platform management.

Built on **Amazon Web Services (AWS)**, Util360 is a fully hosted solution that supports secure remote access, high availability, and scalable performance. The platform is accessible through modern web browsers and is fully optimized for mobile-responsive use, allowing customers to review water usage, manage alerts, and access portal features from desktop, tablet, or smartphone devices.

The proposed solution includes the following core capabilities:

- **Customer self-service access** to water usage and account-related information
- **Hourly, daily, weekly, and billing-cycle usage visibility** through charts and dashboards
- **High usage, continuous flow, and threshold-based alerting**
- **Email and text notification support**
- **Configurable customer preferences** for alert thresholds and communication methods
- **Administrative controls** for District staff to manage alerts, messaging, and platform settings
- **Secure hosted deployment** with encryption, role-based access, and audit visibility
- **Integration-ready architecture** to support utility data sources and related customer-facing systems

Util360 is designed not only to replace the District's current portal, but also to improve the overall customer experience by providing a cleaner interface, stronger alerting capabilities, and a more engaging digital environment that supports conservation awareness and long-term portal adoption.

3.2. How the Proposed Solution Meets the Minimum Requirements

360S2G understands that the District requires a replacement portal that provides meaningful access to customer water usage information while improving usability, security, and customer communication. Util360 aligns with these requirements as follows:

3.2.1. Water Usage Data and Visualization

District Requirement	360S2G Response
a. Hourly Water Consumption Data in charts/graphs	Util360 provides hourly water consumption data through intuitive charts, graphs, and dashboard views , allowing customers to clearly visualize usage activity and identify meaningful trends over time.
b. Allow customers to view usage by hour, day, week, billing cycle, and other historical periods	Customers can review water usage by hour, day, week, billing cycle, and historical periods , giving them flexible visibility into both short-term and long-term consumption behavior.
c. Enable customers to identify patterns such as continuous flow or excessive sprinkler usage	The platform supports visibility into abnormal conditions such as continuous flow, high usage events, recurring usage patterns, and excessive irrigation-related consumption , helping customers detect leaks or unusual usage

	behavior more quickly.
--	------------------------

3.2.2. Alerts and Notifications

District Requirement	360S2G Response
a. Automatically detect and notify customers of high or continuous water usage	Util360 includes configurable alert and notification capabilities designed to proactively notify customers of high-water usage and continuous flow conditions , supporting early awareness and quicker customer response.
b. Allow customers to define alert thresholds	Customers can configure personalized alert thresholds based on their preferences, allowing them to receive notifications when usage exceeds selected limits or expected patterns.
c. Provide notifications via text or e-mail	The platform supports notifications through both e-mail and text messaging , providing flexible communication options based on customer preference.

3.2.3. Accessibility

District Requirement	360S2G Response
a. The portal shall be accessible via modern web browsers and mobile devices (including mobile-responsive design)	The proposed portal is accessible through modern web browsers and is designed with a mobile-responsive interface that supports use across desktops, tablets, and smartphones.
b. Be intuitive for customers of varying technical abilities	Util360 emphasizes a clean, intuitive, and user-friendly experience that supports customers with varying levels of technical comfort and digital familiarity.
c. Comply with accessibility standards	The platform is designed to support recognized accessibility best practices and standards , helping ensure a more inclusive and usable experience for a broad customer base.
d. Support District branding	Util360 supports District branding , allowing the portal interface to reflect the District's identity, customer-facing messaging, and visual presentation.

3.2.4. Security and Data Privacy

District Requirement	360S2G Response
a. Follow industry best practices for data security and encryption	Util360 follows industry-standard security and data protection best practices , including encryption of data in transit and at rest , secure authentication, and role-based access controls.
b. Comply with applicable State and Federal data protection requirements, including the Utah Government Data Privacy Act (UCA 63A-19)	360S2G will support the District's compliance obligations by delivering a secure hosted environment and operational controls aligned with applicable State and Federal data protection requirements , including the Utah Government Data Privacy Act (UCA 63A-19) as applicable to the contracted services.
c. Implement appropriate administrative, technical, and physical safeguards to protect personal data and customer water usage information	Util360 is delivered within a secure cloud environment supported by appropriate administrative, technical, and physical safeguards designed to protect personal data and customer water usage information from unauthorized access, disclosure, or misuse.
d. Use customer data solely for the purposes of providing services under the contract	360S2G will use District customer data solely for the purpose of delivering services under the contract and will not use or disclose such data for unrelated purposes.
e. Promptly notify the District of any actual or suspected data breach affecting District data	360S2G will promptly notify the District of any actual or suspected data breach or security incident affecting District data in accordance with contractual and legal obligations.
f. Cooperate with the District in responding to any legally required data-breach	360S2G will fully cooperate with the District in connection with any required notifications, investigations, mitigation steps, or remediation efforts related to a security incident or breach affecting District data.

notifications, investigations, or remediation efforts	
g. Ensure that any subcontractors or third-party services comply with the same data protection obligations	360S2G does not rely on subcontractors or third-party delivery partners to perform the core services proposed under this contract. Services are delivered directly by 360S2G personnel. If any approved third-party services are used as part of the hosted solution environment, 360S2G will ensure that such services are subject to appropriate data protection, confidentiality, and security obligations consistent with the requirements of this project.

3.3. Additional Preferred Features

In addition to the minimum requirements, **Util360 can support several of the District's preferred features**, helping strengthen customer engagement and enhance the long-term value of the platform.

Preferred Feature	360S2G Response
i. Single Sign-On / Integrated Customer Experience	Util360 supports modern authentication and integration capabilities that can be configured to provide a more streamlined customer login experience, including Single Sign-On (SSO) scenarios where appropriate.
ii. Customer Notifications for Water Events	The platform can support broader customer communication use cases, including water event notifications, service advisories, outage-related messaging, and other customer-facing notices managed through configurable administrative tools.
iii. Neighbor Comparison / Comparative Usage Insight	Util360's reporting and dashboard capabilities can be extended to support comparative usage insights , allowing customers to better understand their consumption patterns in context and encouraging conservation awareness.
iv. Usage Threshold and Tier Awareness	The platform supports threshold-based alerting and can be configured to provide customers with advance notifications as usage approaches defined limits or target thresholds.
v. Mobile Access	Util360 is fully mobile-responsive and designed to provide a consistent user experience across desktops, tablets, and smartphones, supporting convenient customer access across devices.
vi. Multi-Account Support	The platform architecture supports scenarios in which users may need visibility into multiple accounts , which can be beneficial for property managers or customers responsible for more than one location.
vii. Cloud Hosted	Util360 is an AWS-certified solution , hosted on AWS in a secure single-tenant environment, supporting reliable uptime, scalability, and ongoing maintainability while reducing the need for local infrastructure.

3.4. Training Provided for Adoption of the New Software

360S2G will provide structured training to support the successful adoption of the new Customer Water Usage Portal by District personnel. Our training approach is designed to ensure that users understand both the administrative and operational aspects of the solution and are prepared to support customers effectively following go-live.

At a minimum, 360S2G will provide the following training sessions:

- **Management Training Session** focused on overall platform capabilities, administrative visibility, reporting, alerts, and operational oversight
- **Customer Support Executives Training Session**
 - ✓ Daily system navigation and workflows
 - ✓ Customer account lookup and usage analysis
 - ✓ Managing alerts and notifications
 - ✓ Responding to customer inquiries
 - ✓ Troubleshooting common issues

Training will be delivered by knowledgeable 360S2G personnel and may include a combination of **live demonstrations, guided walkthroughs, role-based instruction, and supporting reference materials**. The goal of training is not only to explain system functionality, but also to help District personnel feel confident in supporting customer adoption and ongoing use of the platform.

As needed, 360S2G will also support post-training follow-up, user questions, and go-live assistance to help reinforce adoption and ensure a smooth transition to the new solution.

3.5. How Updates Are Prepared and Implemented

Util360 is maintained through a structured update and release management process designed to ensure platform stability, security, and continuous improvement. Updates are prepared by 360S2G through internal review, controlled development practices, and quality assurance procedures, and will be deployed only after receiving formal approval from the District.

This process includes:

- Review and prioritization of improvements, fixes, and enhancement needs
- Configuration and development within controlled environments
- Internal testing and validation prior to release
- Coordinated deployment planning to minimize disruption
- Communication with client personnel regarding relevant changes or update impacts

Because Util360 is an **AWS-hosted solution**, updates can be implemented efficiently without requiring the District to manage local software installation or infrastructure changes. This delivery model helps ensure that the platform remains current, secure, and operationally effective over time.

Where appropriate, 360S2G works collaboratively with client personnel to coordinate update timing, validate key functionality, and support smooth adoption of enhancements or changes introduced after go-live.

4. Section 3 – Schedule

4.1. Time Necessary to Implement the New Software

360S2G implementation methodology is designed to deliver maximum business value with a strong emphasis on transparency, error reduction, quality improvement, and minimizing the time required for organizations to go live. As a trusted partner, we ensure a secure, efficient, and optimized implementation of the right solution, tailored to address each customer's unique challenges.

Our team comprises industry experts and software-certified professionals who specialize in enhancing operational efficiency and streamlining processes, ultimately saving organizations both time and costs.

With years of experience in software implementation, we have refined a project management approach based on agile principles.

Key aspects of our methodology include:

- Breaking projects into smaller, manageable milestones for better tracking and oversight.
- Ensuring the continuous delivery of deliverables as we progress through milestones.
- Fostering close, daily collaboration between business teams and developers.
- Maintaining a strong focus on technical and design excellence.
- Handling data mapping and system configuration with precision.
- Offering scripting and seamless integration with third-party applications through our technical team.

At the core of our methodology are **Discovery Workshops**, which allow us to gain a deep understanding of the District's current and future business processes. This ensures the implementation aligns with industry best practices and maximizes system effectiveness.

Our team brings firsthand industry experience, having started their careers in the field. The proposed solution is secure, scalable, encrypted, and resilient, with an intuitive user interface designed to enhance staff efficiency, productivity, profitability, and innovation. Additionally, it supports customer engagement and social responsibility initiatives.

The Overall Deployment Approach is as follows:

Activity 1 – Project Initiation

Project Planning

- 360S2G and District’s Roles and Responsibilities
- Issues Management (Issue Management Solution)
- Risk Management Plan
- Communication Plan
- Change Order Plan
- Training Plan
- On-Site Project Facilities
- Deliverables

Activity 2 – Implementation Approach

- Milestone 1 – Project Initiation
- Milestone 2 – Discovery and Requirement Analysis
- Milestone 3 – Interface and Solution Enhancements
- Milestone 4 – Data Mapping
- Milestone 5 – Implementation of **Util360 Enterprise Utility Management**
- Milestone 6 – Implementation of **Util360 Customer Self-Service Portal (Web & Mobile Apps)**
- Milestone 7 – Util360 Integrated Team Testing
- Milestone 8 – End User Training
- Milestone 9 – User Acceptance Testing (UAT)
- Milestone 10– Go Live
- Milestone 11– Post Go Live Support

4.1.1. Implementation Schedule

<Redacted Information>

4.1.1.1. Project Implementation Schedule

<Redacted Information>

4.2. District Resources Required to Assist with Implementation

360S2G will lead and execute the **implementation, performing** the majority of activities required to successfully deploy the proposed solution. The District’s role, while critical, will remain focused and limited to key engagement points, including **project initiation, discovery, training, and user acceptance testing (UAT)**. The overall level of effort required from District staff is anticipated to be **approximately 10%** of the total project effort.

Our implementation methodology is designed to reduce the burden on District staff by allowing 360S2G to manage the core configuration, deployment, testing support, and go-live activities. District participation will mainly be needed to confirm business requirements, review key deliverables, validate functionality, and support operational readiness.

The following District resources are typically required during implementation:

District Resource	Expected Role During Implementation
➤ Project Manager / Primary Point of Contact	Provide limited coordination as the primary contact for scheduling, approvals, and key project communications, as needed.
➤ IT / Technical Contact	Provide occasional support for access, authentication, and system connectivity, primarily during initial setup and integration validation.
➤ Customer Service Lead	Offer high-level input on customer-facing workflows and usability preferences during early project stages.
➤ Meter / AMI or Data Contact	Assist, as needed, with validation of usage data and confirmation of data accuracy during integration and testing phases.
➤ Designated Review / Testing Users	Participate in User Acceptance Testing (UAT) at defined checkpoints to confirm system functionality prior to go-live.
➤ Training Participants	Attend brief, role-based training sessions to support readiness for system use and customer support.

5. Appendix A

5.1. Key Personnel

The proposed **360S2G team** brings extensive experience in implementing, configuring, and supporting the **Util360 platform**, including customer-facing utility solutions, hosted deployments, and public-sector software environments. Our staff includes experienced professionals in **project management, system configuration, integration, training, and post-go-live support**, enabling us to deliver projects efficiently and with a strong focus on quality and usability.

Many of our team members have experience supporting **public-sector and utility-related organizations**, giving them practical insight into the operational and customer service needs of agencies such as the District. This experience supports our ability to deliver a solution aligned with the District's goals for customer engagement, water usage visibility, and digital self-service.

Upon contract award, 360S2G will assign a **dedicated Project Manager** and a qualified implementation team to support the successful deployment of the new **Customer Water Usage Portal**. We are committed to providing the District with a knowledgeable, responsive, and experienced team throughout implementation and go-live.

<Redacted Information>

5.2. Relevant Experience

360S2G has successfully delivered projects of similar nature, scope, and complexity for **municipal governments and public-sector utility agencies** across the United States. Our experience includes the implementation of **customer-facing digital platforms, hosted solutions, and utility engagement systems** designed to improve customer access to usage information, enhance communication, and support operational efficiency.

We currently support over **260 public-sector organizations nationwide**, including municipal utilities and regional service providers. These implementations support customer bases ranging from **tens of thousands to several hundred thousand users**, and include solutions used by customer service, operations, and administrative staff.

Over the past decade, 360S2G has implemented and supported the **Util360 platform** for more than 50 utility agencies. These projects have included **customer portals, usage visibility tools, notifications, and system integrations**, supporting evolving customer engagement needs and long-term digital transformation initiatives.

Util360 is a secure, **AWS-hosted cloud platform** designed for scalability, reliability, and continuous availability. The platform supports **customer self-service, usage visibility, notifications, and integration with enterprise systems**. As part of these deployments, 360S2G provides **ongoing technical and operational support** to ensure system performance, security, and service continuity.

5.2.1. Core Capabilities Supporting Similar Project Implementations

The Util360 platform includes key capabilities aligned with projects similar to the District's requirements, including:

- **Customer Self-Service Portal** for access to **water usage, alerts, and account-related information**
- **Usage Visualization** through **hourly, daily, and historical charts and dashboards**
- **Alerts and Notifications** for **high usage, leaks, and continuous flow**
- **Mobile-Responsive Access** across desktop, tablet, and smartphone devices
- **Integration with Utility Data Systems** to support timely and accurate usage visibility
- **Secure AWS-Hosted Deployment** with **encryption and role-based access controls**
- **Administrative Tools and Reporting** to support District staff and customer service operation

5.3. 360S2G Financial Statement

<Redacted Information>

GRANGER-HUNTER
IMPROVEMENT DISTRICT

OPERATIONS APPROVAL

OPERATIONS

-Approval

2026 Budget Amount: \$81,000.00
2026 Contract Amount: \$67,146.23
Service Provider: Tyler Technologies, Inc.

Description: IncodePro10 is the District's Enterprise Resource Planning (ERP) software. It is used for financial management, HR, revenue management, utility billing, property tax management, reporting / data analytics, and capital projects budget tracking.

Requested Approval: Consider approval for the annual renewal of Tyler Technologies support and maintenance contract in the amount of \$67,146.23

GRANGER-HUNTER
IMPROVEMENT DISTRICT

CAPITAL PROJECTS APPROVALS

July 2026 Board Meeting

CAPITAL PROJECTS APPROVAL

26D: Manhole Rehabilitation Project

Capital Project: Manhole Rehabilitation
Address: Various Locations
Project Budget: \$150,000.00 (2026)
GHID Project Manager: Zak Bedard/Kyle Dean
Consultant: In-house Design & Construction Management

Project Description: Rehabilitation of 20 manholes using spray on epoxy liner to seal infiltration and prevent corrosion.

Project Update: The District posted a Request for Bid using U3P (Bonfire) and held a public bid opening on June 30th. Two contractors submitted bids for the project and the bid results are as follows:

CONTRACTORS	BID AMOUNT
Don Calvert Painting & Special Coatings	\$167,401.00
Cardinal Coatings	\$208,455.50

Don Calvert Painting & Special Coatings was the apparent low bidder for the project. The District has worked with this Contractor on multiple successful lining projects in the past and is confident in their abilities to perform the required tasks to ensure a successful completion of the project.

Staff Recommendation: Consider approval of a construction contract for the construction of the 26D: Manhole Rehabilitation Project to Don Calvert Painting & Special Coatings, in the amount of \$167,410.00.

Memorandum

Date: July 22nd, 2026
To: Jason Helm, P.E., General Manager
From: Zak Bedard, Project Manager
Subject: 26D: Manhole Rehabilitation Project
Copy: Todd Marti, MPA, P.E., Asst. General Manager
Troy Stout, P.E., Assistant GM
Victor Narteh, P.E., Director of Engineering

On May 26th, 2026, Granger-Hunter Improvement District posted a Request for Bid (RFB) on the Utah Public Procurement Place (U3P) using the state of Utah's e-procurement platform, Bonfire for the 26D: Manhole Rehabilitation Project. On Tuesday, June 30th, 2026, a public bid opening was held and read aloud for the above referenced project.

Two contractors submitted bids for the project. The bid results were as follows:

Bidder	Bid Amount
Don Calvert Painting & Special Coatings	\$167,401.00
Cardinal Infrastructure Services, LLC	\$208,455.50

Don Calvert Painting & Special Coatings submitted the low bid of **\$167,401.00**. Their bid package has been reviewed and is complete and accurate, including proper bid security and required documentation.

Although the low bid exceeds the current project budget of \$150,000.00, I recommend taking the full amount to the Board of Trustees for approval. This will give the District flexibility to delete bid items as needed to stay within budget. If additional unused funds become available later, they can be applied to complete the remaining work so that all 20 manholes are rehabilitated.

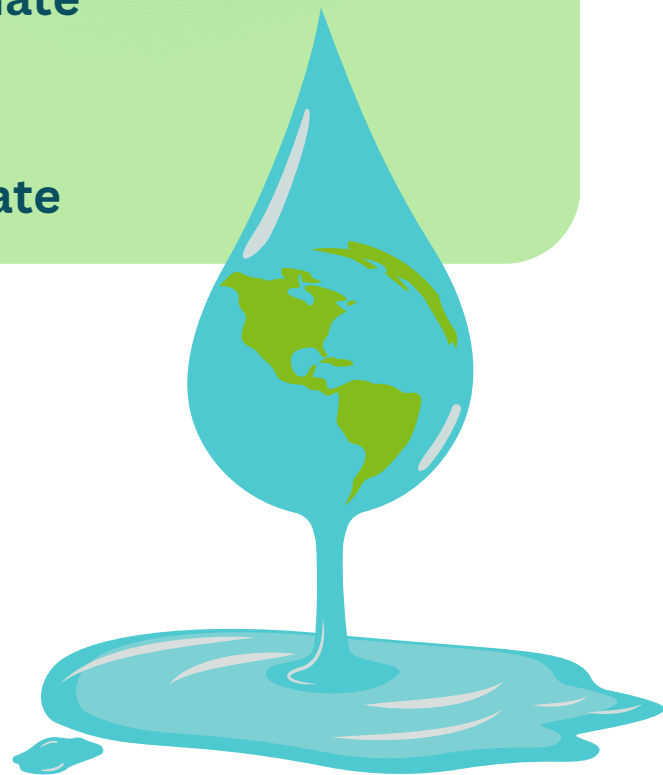

With your permission, I recommend requesting Board approval of a construction contract with Don Calvert Painting & Special Coatings in the amount of \$167,401.00 for the 26D: Manhole Rehabilitation Project.

¹ The City of South Salt Lake contract is based on a fiscal year. All other contracts are based on a calendar year.

² Retail deliveries are finalized after billing. Preliminary estimates using AMI data are made for the month previous to today.

³ Contract amount is minimum purchase plus remediated water.

⁴ Water treated and transported for MWDSLS by JVWCD is delivered to Salt Lake City at 2100 South.

⁵ District Use (Non-revenue) includes water consumed in breaks, reservoir washing, fires, irrigation and facility potable water.

⁶ Willow Creek Country Club average annual usage is estimated at 350 acre-feet.

ADMINISTRATIVE SERVICES UPDATE

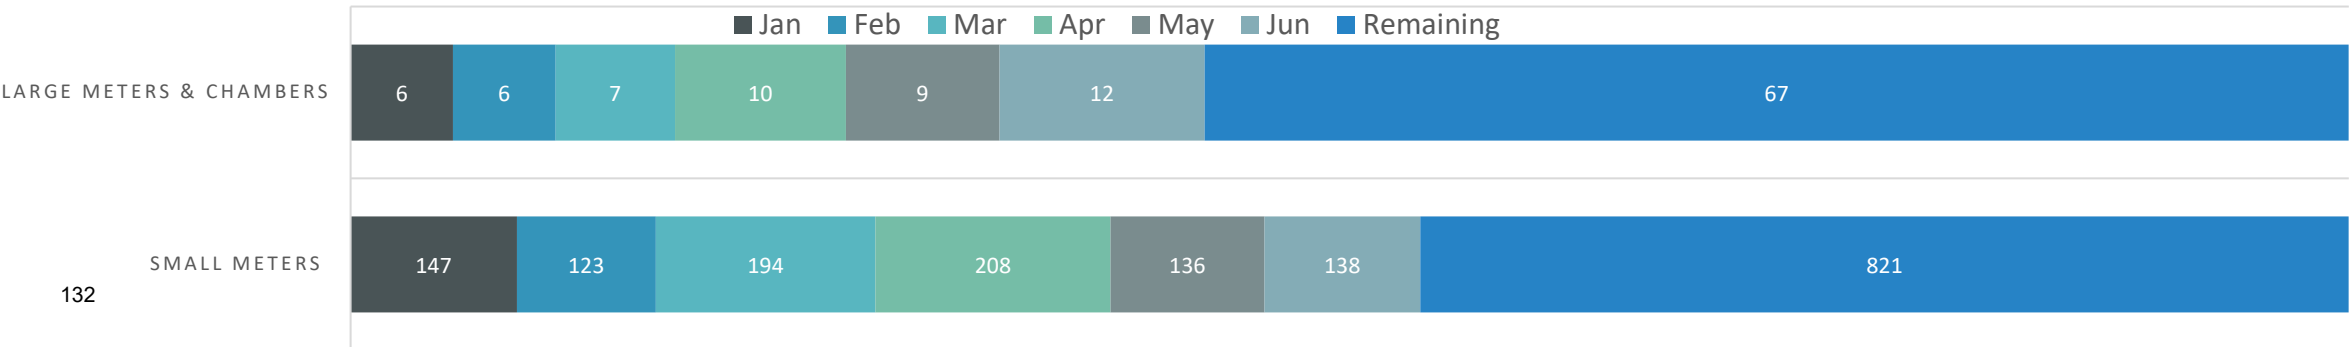

Administrative Services - Appendix

June Meter Division Results

- 792 work orders completed
- 372 proactive work orders, including:
 - 75 new move-in door notices
 - 63 delinquent door notices
 - 77 stale meter investigations prior to reading
- 352 reactive work orders, including:
 - 57 checks for stopped meters
 - 57 repairs to radios not communicating to the tower
 - 39 New owner shut-off for failure to sign for service
- 68 Leak checks – Most from homeowners starting irrigation systems for the season.

NEW METERS INSTALLED YEAR TO DATE

WESTFEST PARADE 2026

GHID proudly participated in the 2026 WestFest Parade alongside more than 50 community organizations, local businesses, and community partners.

HUNDREDS OF SPECTATORS

The parade drew hundreds of spectators along the route and reached more than **10,000** viewers through the event livestream.

PROMOTED OUR MESSAGE

Staff and volunteers promoted our **“Use 10% Less Water”** campaign to encourage residents to save water every day.

STRONGER TOGETHER

Increased community awareness of water conservation, strengthened partnerships, and showcased our commitment to protecting our water resources.

INFRASTRUCTURE

-Water Quality

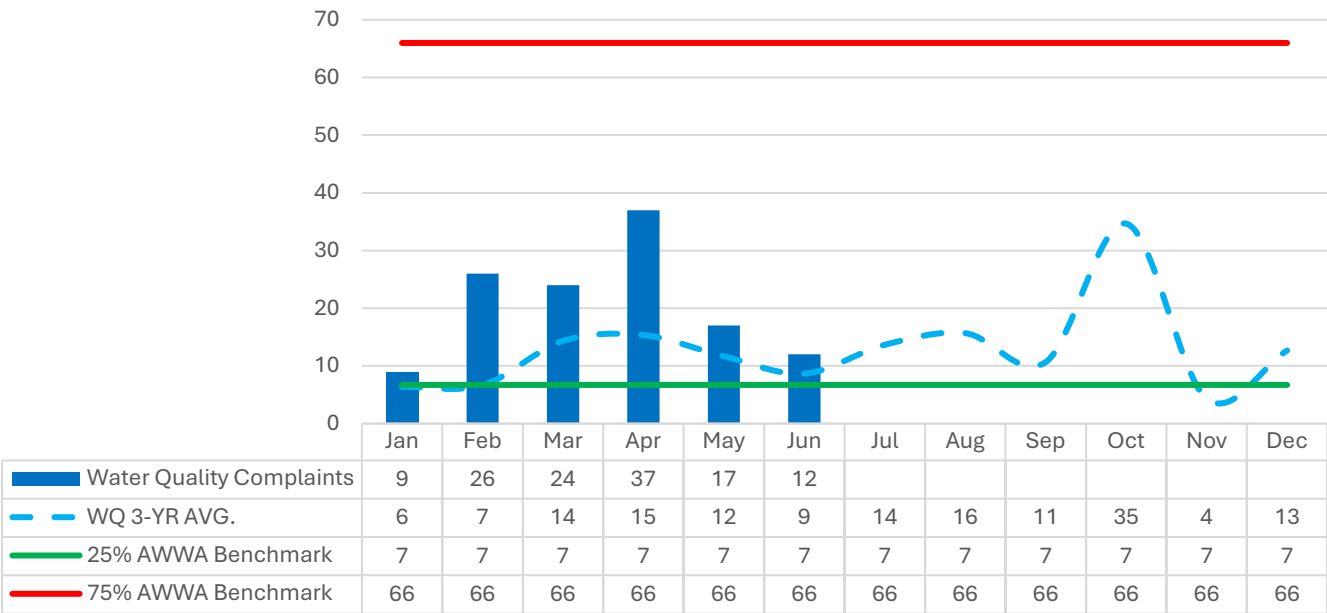

Water Quality continues to focus on maintaining safe, reliable, and high-quality drinking water throughout the distribution system. Staff are actively performing routine water quality sampling, system flushing, chlorine residual monitoring, and bacteriological testing to ensure compliance with all state and federal drinking water standards.

12

Total Complaints

Water Quality Customer Complaints

INFRASTRUCTURE

-Water Quality

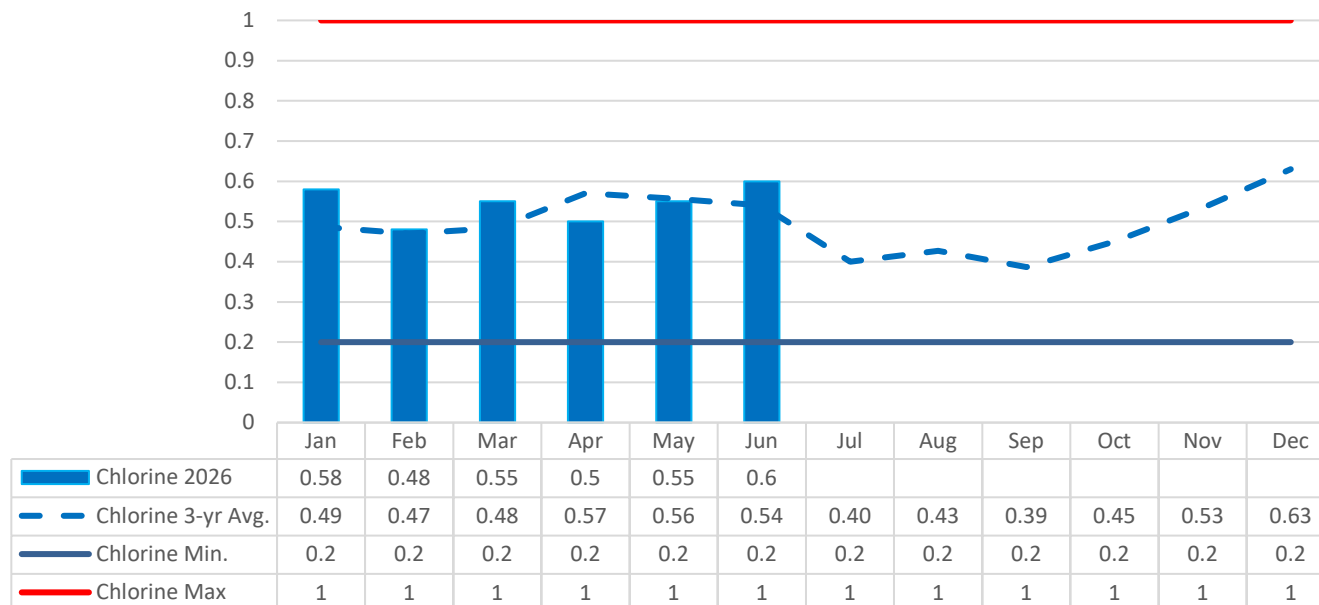

Free chlorine residuals throughout the distribution system remained within established operational targets during the reporting period, helping ensure continued disinfection protection and regulatory compliance. Routine monitoring and sampling confirmed that water quality standards were consistently maintained across the system. Staff continue to proactively monitor chlorine levels, water age, and system conditions to support safe, reliable drinking water and maintain high-quality service for our customers.

Wastewater Maintenance Update

Collection System Cleaning

Collection System CCTV

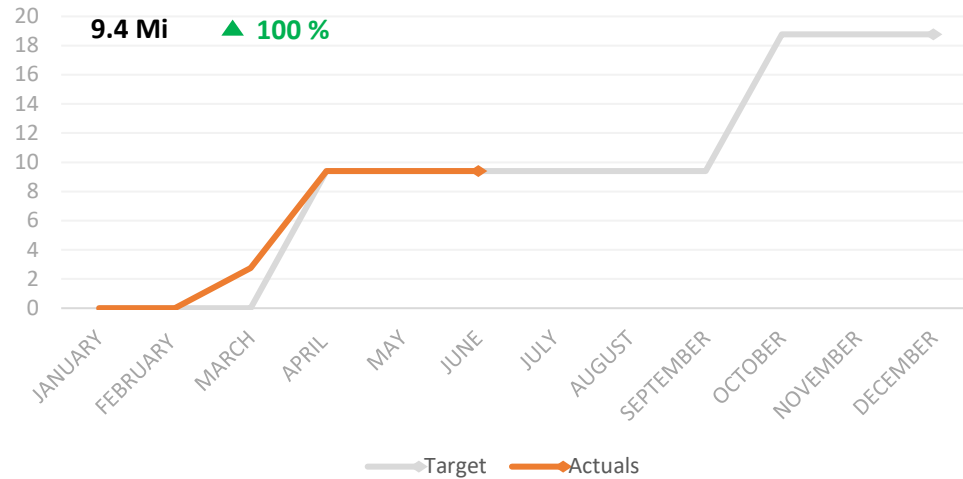

2026 Data:

- During the month of June, we focused solely on routine cleaning and CCTV inspections. We are on track for cleaning target and just below our CCTV target. Footage is still lower than we'd like on CCTV due to an employee being on light duty, and also for performing lateral launch on connections for the water group's water line project.

Wastewater Maintenance Update

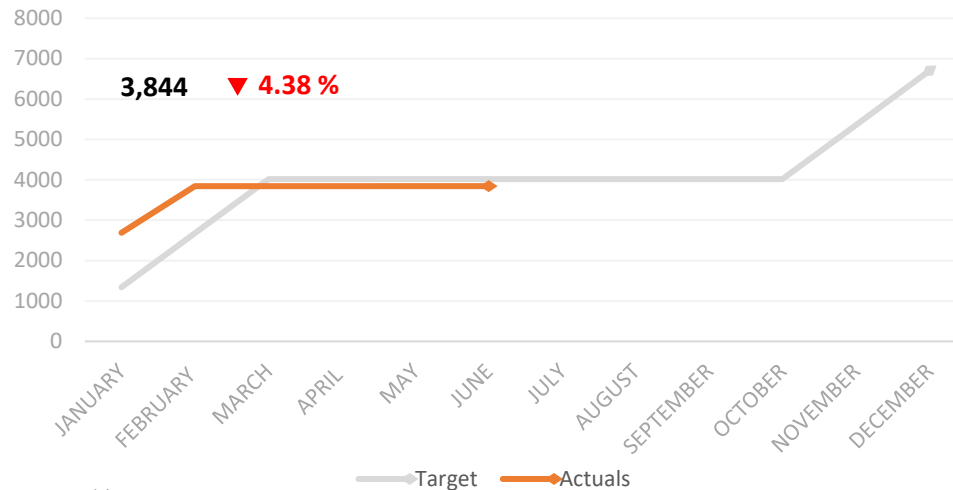

Collection System Hot Spot Cleaning

2026 Data:

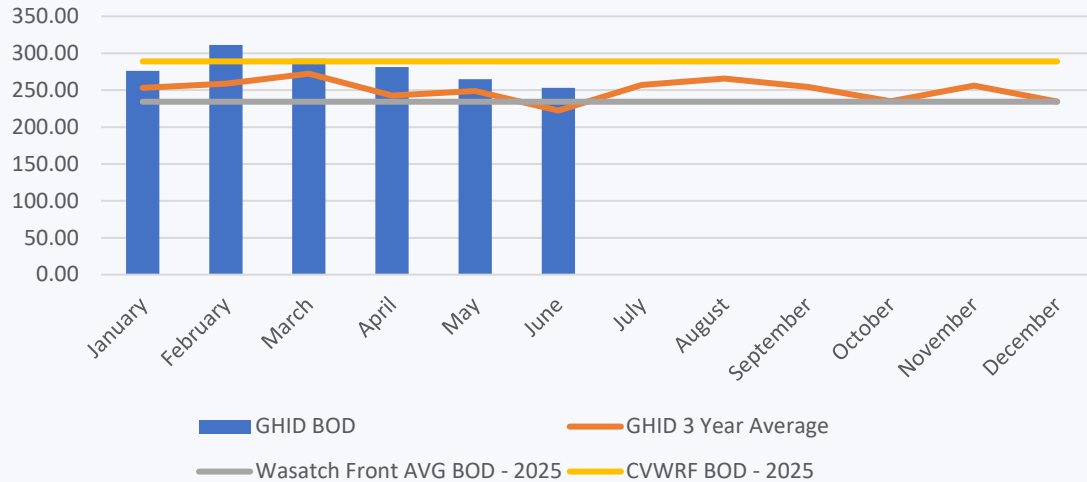

- Hotspot Cleaning- Complete. Will clean again in October.
- Manhole Inspections- We are just below our target. This is not alarming. We remain confident that we will achieve our target before the end of the year.

Manhole Inspections

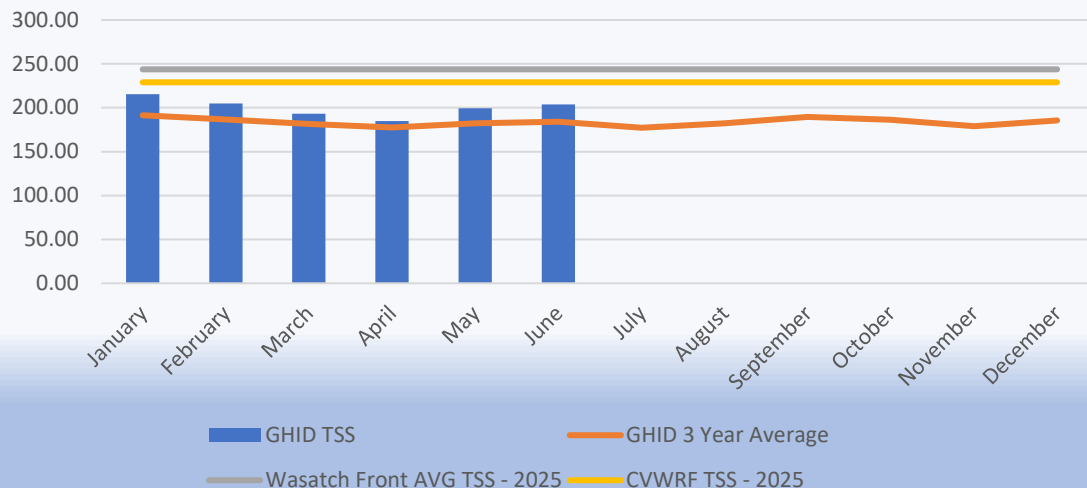

Wastewater Maintenance Update

BOD - Concentration

TSS - Concentration

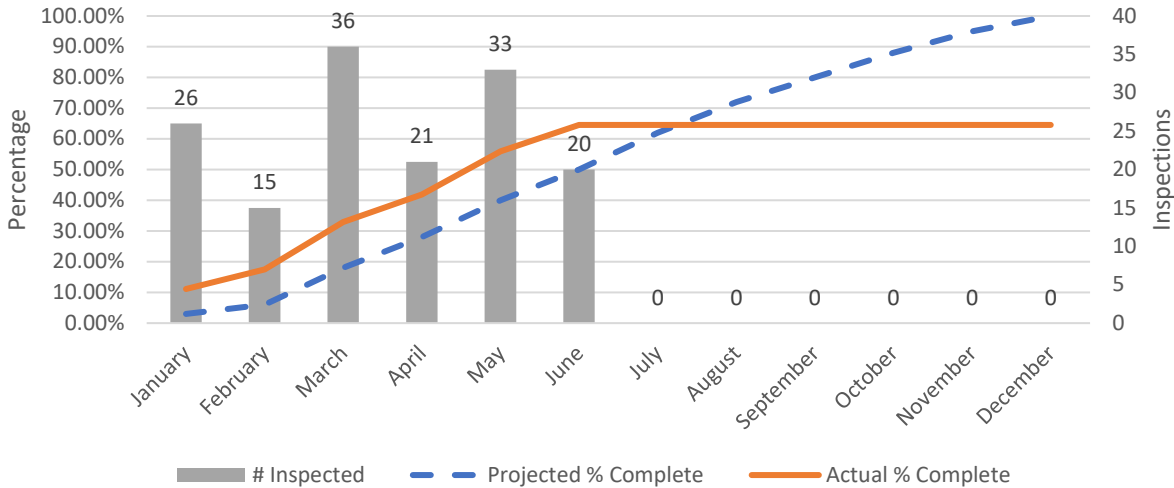

2026 Data:

- Biochemical Oxygen Demand (BOD) and Total Suspended Solids (TSS) are used to measure the overall strength of the sewer.
- The BOD/TSS numbers are an average of the results from a monthly sample.
- The Wasatch front AVG is an annual average of BOD/TSS levels from 2025 data collected from the following entities:
 - North Davis Sewer District
 - Timpanogos Special Service District
 - Snyderville Basin (East Canyon & Silver Creek)
 - Springville City

Wastewater Maintenance Update

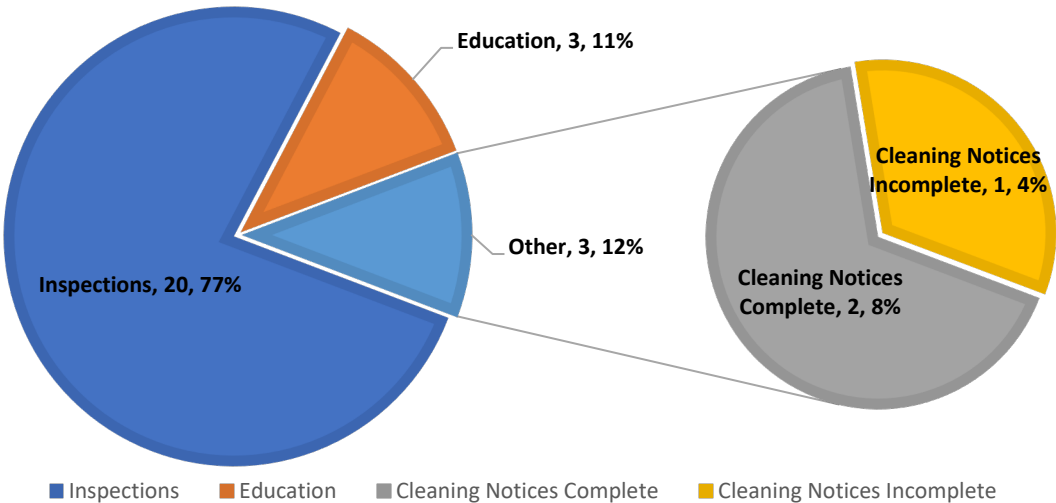

Grease Interceptor Inspections - 2026

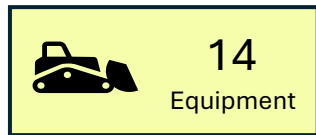

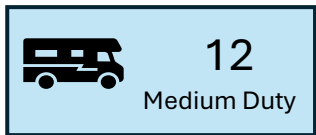

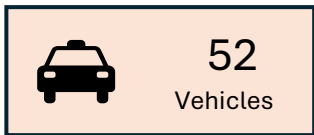

2026 Data:

- Twenty (20) interceptor and sampling manhole inspections were completed in June.
- Fats, Oil, Grease and Solids (FOGS) program performed in June:
 - Three (3) education visits with customers
 - Three (3) Cleaning Notices with two (2) of those notices being completed before the follow-up inspections.

OPERATIONS UPDATE

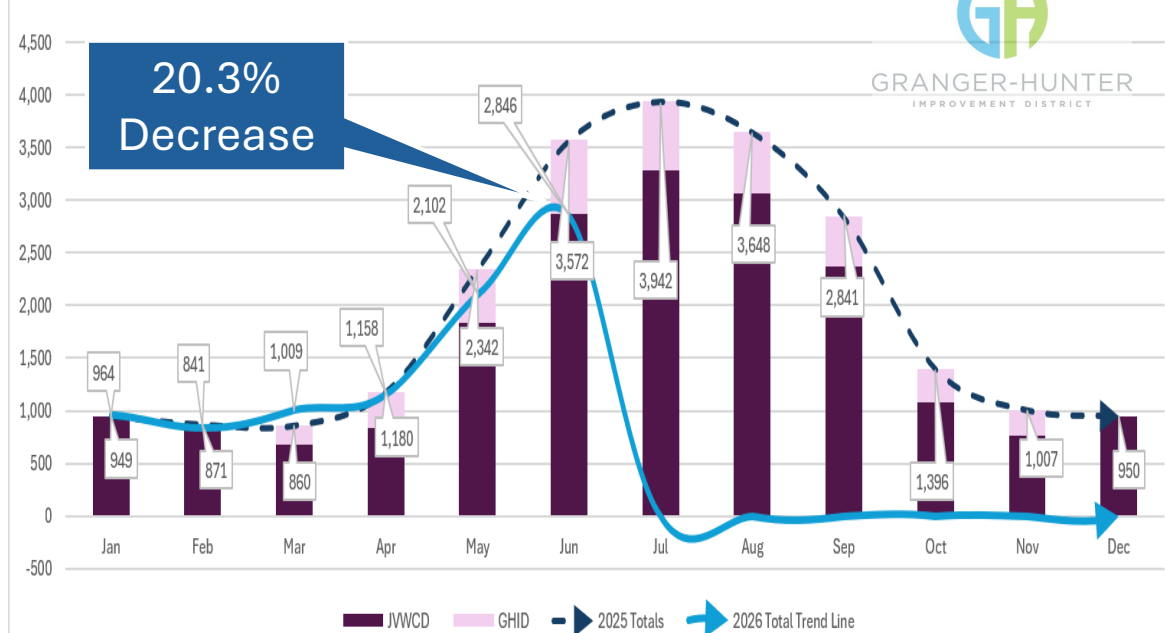

OPERATIONS

-Water Supply vs Water Demand

Water demand remained heavy in June. Total demand rose by 745 acre-feet over the prior month, making a 35.4% increase.

Last Year vs Current Year Totals

4 Year Average vs Current Year Totals

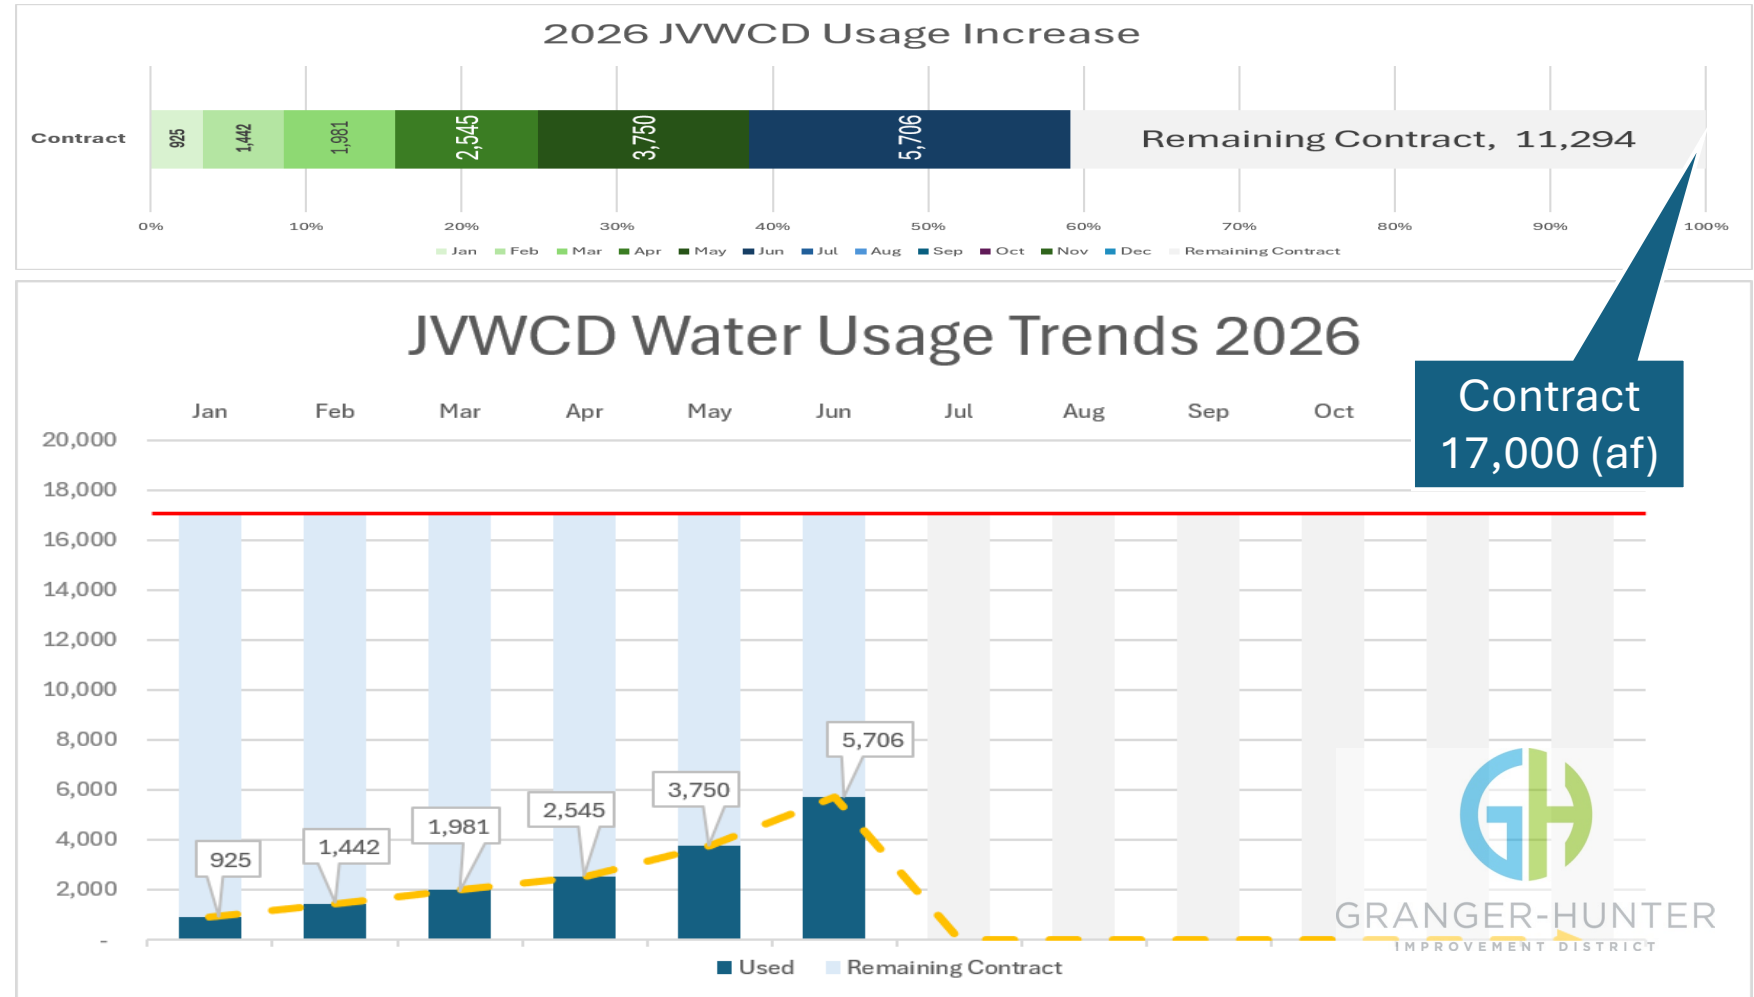

OPERATIONS

-Water Usage Increase

Water demand from JWCD increased considerably during June. Increasing demand is expected throughout the next few months. In June, demand was 1,956.61 acre-feet, a 52.2% increase from the prior month.

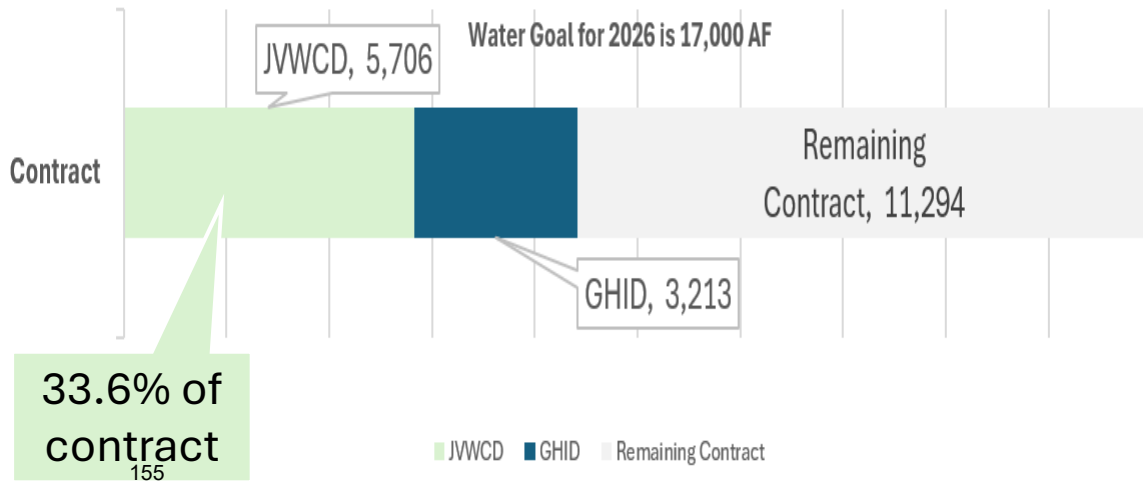

OPERATIONS

-Total Water

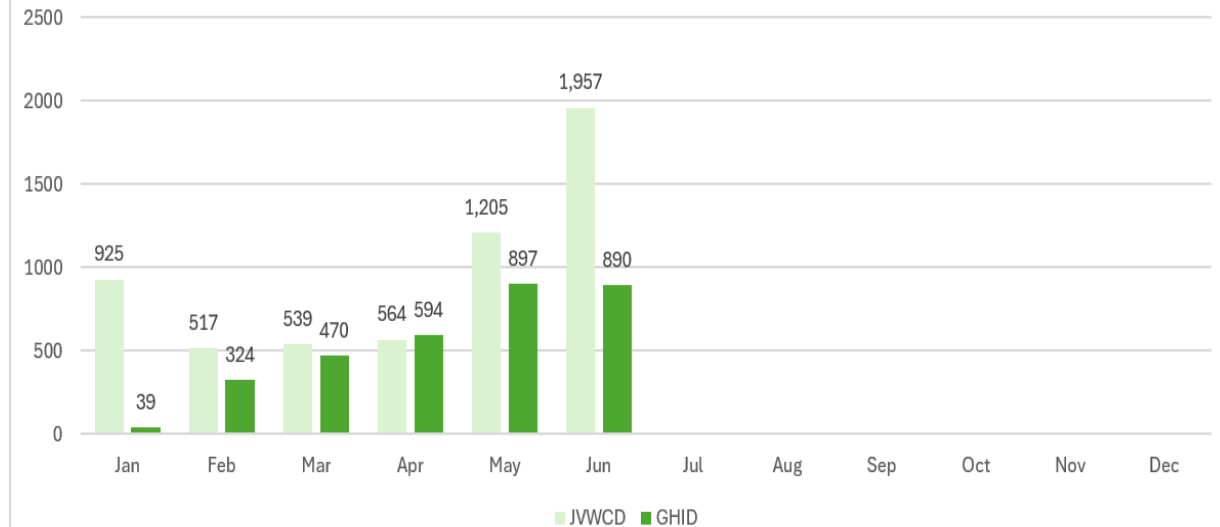

Jordan Valley Water Conservancy District provides approximately 82% of total demand under a 17,000 acre-foot contract. The remaining 18% is supplied through Granger-Hunter's local water sources. The charts below illustrate the respective contributions from JWCD and GHID. In May, the District produced 890 acre-foot from its sources, 1,067 acre-foot less than purchased from JWCD.
